Introduction

Every three years ADEC Board of Directors and agency leadership work to develop a strategic plan. Over a nine-month period, the participants involved in this process spent time completing an environmental scan, identified the strategic issues facing the organization, and developed initiatives to take advantage of strengths and opportunities as well as to respond to threats and weaknesses.

ADEC maintains the philosophy that the strategic plan should be easily understood and readily implemented.

With the goal of increasing participation engagement, ADEC carried out an expansive approach to gather input and feedback from individuals and families served, ADEC management and staff, community partners, peer agencies across the state of Indiana, insight, and industry trends from INARF and The ARC. ADEC hosted forums and group discussions, held surveys and webinars, facilitated interactive sessions, utilized appreciative inquiries, and engaged Listen Up Creative to better understand the digital reach to stakeholders. Other input included virtual visits with four similar agencies in Indiana, review of prior year performance measurements, and linkage to Life Course Framework. A sincere Thank You to Laura Brackin, Ph.D., Brackin and Associates, who provided feedback, support, and reflection to help construct a plan that was progressive in creating a truly integrated, inclusion and person-centered “thinking, planning and practice” strategic plan.

Components of the plan

- **Mission – Vision – Values** The mission, vision and values that lay the foundation of ADEC’s person-center programs and services.

- **Strategic Principles** Five intentionally focus principles that help shape ADEC’s roadmap for the future:
 - Client Outcomes
 - Organizational Effectiveness
 - Program Excellence
 - Expansion
 - Financial Outcomes

- **Strategic Goals** Five broad strategic goals, that are unchanged from the previous three-year strategic plan, that target ADEC’s path over the next three years in achieving ADEC’s mission to provide ‘choice and possibility’:
 - Outstanding Client Satisfaction and Excellence in Service
 - Great Workforce. Great Workplace.
 - Highest Quality Standards
 - Targeted, Smart Growth
 - Financial Sustainability

- **Strategy Roadmap** The three-year strategy roadmap of our operations through the next three years.

- **Expected Outcomes and Activities** Identified expected outcomes for each goal and planned activities intended to help achieve the strategic roadmap and mission of the agency.

The Strategic Plan was created in consideration of many known environmental opportunities and threats, with the awareness that adaptations and shifts may need to occur should unforeseen local, state, or federal changes come about. Of significance is that since March 2020 the agency, and the rest of the world, has been impacted by the Coronavirus-19 Pandemic. Many of our plans for the past 2019 – 2021 planning cycle were thwarted by the pandemic as ADEC had to change to emergency response and suspend or alter many programs for periods

of time. Therefore, some of the elements of this plan, may be similar to our 2019-2021 plans that did not come to fruition.

The **core of the three-year strategic plan** is built upon the expectations of individuals and families served; expectations of our stakeholders including donors, employees, and the communities we serve; the competitive environment of our provider service offerings and alternatives and the labor market; financial opportunities and risks as address annually through the budget process; the agencies capabilities; social determinants of health in areas served which can affect a wide range of health, functioning and quality-of-life outcomes and risks; demographics of the service area; both regulatory and legislative environments; use of technology through out the agency and in programming including consideration of access to technology; and information and feedback from the analyses of performance both operationally as well as programmatically.

The strategic plan sets forth an agency roadmap for the future in consideration of relevant business, environmental and other factors that provide the ability for ADEC to utilize the strategic plan as a dynamic tool, through annual updates and modifications as needed:

- **Annual Plan** Each year, budgetary commitments are identified for every program and administrative area. Results are regularly reviewed by management and reported to the Board. Adjustments to the longer-term strategy will be implemented in response to better or worse than expected performance. Goals and action items will be prioritized annually during the budgetary process.
- **Client Outcomes** All goals and activity on the strategic map are aimed at improvement in client outcomes. A separate, but corresponding Outcome Performance Systems will accompany the plan. Each program has effectiveness, efficiency, satisfaction, and access to services measured that meet CARF standards.
- **Program Measurements** In addition to annual budgetary goals and client outcomes, ADEC will also continue to collect and report on

monthly program and service indicators such as recruitments, retention of staff, financial measures, health, and safety.

Any corporate person shall be fully protected, and shall be deemed to have complied with the standards of conduct, in relying in good faith, with respect to any information contained therein, upon (1) the corporate records, or (2) information, opinions, reports or statements (including financial statements and other financial data) prepared or presented by (A) one or more other corporate persons whom such corporate person reasonably believes to be competent in the matters presented, (B) legal counsel, public accountants or other persons as to matters that such corporate person reasonably believes are within such person's professional or expert competence, (C) a committee of the Board of Directors or other committee appointed by the Board of Directors, of which such corporate person is not a member if such corporate person reasonably believes such committee of the Board of Directors or such appointed committee merits confidence, or (D) the Board of Directors, if such corporate person is not a director and reasonably believes that the board merits confidence.

Section 3. Indemnification. The Corporation shall, to the fullest extent to which it is empowered to do so by the Indiana Non Profit Corporation Act, or any another applicable laws, as are from time to time in effect, indemnify any person who was or is a party, or is threatened to be made a party, to any threatened, pending or completed action, suit or proceedings, whether civil, criminal, administrative or investigative and whether formal or informal, by reason of the fact that he is or was a Director, officer, employee or agent of the Corporation, or who, while serving as such Director, officer, employee or agent of the Corporation, is or was serving at the request of the Corporation as a Director, officer, partner, trustee, employee or agent of another corporation, partnership, joint venture, trust, employee benefit plan or other enterprise, whether for profit or not, against expenses (including excise taxes assessed with respect to employee benefit plans) actually or reasonably incurred by him in accordance with such action, suit or proceeding, if he acted in good faith and in a manner he reasonably believed, in the case of conduct in his official capacity, was in the best interest of the Corporation, and in all other cases, was not opposed to the best interest of the Corporation, and, with respect to any criminal action or proceeding, he either had reasonable cause to believe his conduct was lawful or no reasonable cause to believe his conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement or conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not meet the prescribed standard of conduct.

Section 4. Authorization of Indemnification. To the extent that a Director, officer, employee or agent of the Corporation has been successful, on the merits or otherwise, in the defense of any action, suit or proceeding referred to in Section 3 of this Article, or in the defense of any claim, issue or matter therein, the Corporation shall indemnify such person against expenses (including counsel fees) actually and reasonably incurred by such person in connection therewith. Any other indemnification under Section 3 of this Article (unless ordered by a court) shall be made by the Corporation only as authorized in the specific case, upon a determination that indemnification of the Director, officer, employee or agent is permissible in the circumstances because he has met the applicable standard of conduct. Such determination shall be made (1) by the Board of Directors by a majority vote of a quorum consisting of Directors who were not at the time parties to such action, suit or proceeding; or (2) if a quorum cannot be obtained under subdivision (1), by a majority vote of a committee duly designated by the Board of Directors (in which designation Directors who are parties may participate), consisting solely of two or more Directors not at the time parties to such action, suit or proceeding; or (3) by special legal counsel; (A) selected by the Board of Directors or its committee in the manner prescribed in subdivision (1) or (2), or (B) if a quorum of the Board of Directors cannot be obtained under subdivision (1) and a committee cannot be designated under subdivision (2), selected by a majority vote of the full Board of Directors (in which selection Directors who are parties may participate); or (4) by the shareholders, but shares owned by or voted under the control Directors who are at the time parties to such action, suit or proceeding may not be voted on the determination. Authorization or indemnification and evaluation as to reasonableness of expenses shall be made in the same manner as the determination that indemnification is permissible, except that if the determination is made by special legal counsel, authorization of indemnification and evaluation as to reasonableness of expenses shall be made by those entitled under subsection (3) to select counsel.

Section 5. Good Faith Defined. For purposes of any determination under Section 3 of this Article X, a person shall be deemed to have acted in good faith and to have otherwise met the applicable standard of conduct set forth in Section 3 if his action is based on information, opinions, reports, or statements, including financial statements and other financial data, if prepared or presented by (1) one or more officers or employees of the Corporation or another enterprise whom he reasonably believes to be reliable and competent in the matters presented; (2) legal counsel, public accountants, appraisers or other persons as to matters he reasonably believes are within the

person's professional or expert competence; or (3) a committee of the Board of Directors of the Corporation or another enterprise of which the person is not a member, if he reasonably believes the committee merits confidence. The term "another enterprise" as used in this Section 5 shall mean any other Corporation or any partnership, joint venture, trust, employee benefit plan or other enterprise of which such person is or was serving at the request of the Corporation as a Director, officer, partner, trustee, employee or agent. The provisions of this Section 5 shall not be deemed to be exclusive or to limit in any way the circumstances in which a person may be deemed to have met the applicable standards of conduct set forth in Section 3 of this Article XIV.

Section 6. Payment of Expenses in Advance. Expenses incurred in connection with any civil or criminal action, suit or proceeding shall be paid for or reimbursed by the Corporation in advance of the final disposition of such action, suit or proceeding, as authorized in the specific case in the same manner described in Section 4 of this Article, upon receipt of a written affirmation of the Director, officer, employee or agent's good faith belief that he has met the standard of conduct described in Section 3 of this Article and upon receipt of a written undertaking by or on behalf of the Director, officer, employee or agent to repay such amount if it shall ultimately be determined that he did not meet the standard of conduct set forth in this Article IX, and a determination is made that the facts then known to those making the determination would not preclude indemnification under this Article XIV.

Section 7. Provisions Not Exclusive. The indemnification provided by this Article IX shall not be deemed exclusive of any other rights to which a person seeking indemnification may be entitled under the Articles of Incorporation, the Corporation's By-Laws, any resolution of the Board of Directors or shareholders, any other authorization, whenever adopted, after notice, by a majority vote of all voting stock then outstanding, or any contract, both as to action in his official capacity and as to action in another capacity while holding such office, and shall continue as to a person who has ceased to be a Director, officer, employee or agent, and shall insure to the benefit of the heirs, executors and administrators of such a person.

Section 8. Vested Right to Indemnification. The right of any individual to indemnification under this Article shall vest at the time of occurrence or performance of any event, act or omission giving rise to any action, suit or proceeding of the nature referred to in Section 3 of this Article IX and, once vested, shall not later be impaired as a result of any amendment, repeal, alteration or other modification of any or all of these provisions. Notwithstanding the foregoing, the indemnification afforded under this Article shall be applicable to all alleged prior acts or omissions of any individual seeking indemnification hereunder, regardless of the fact that such alleged acts or omissions may have occurred prior to the adoption of this Article. To the extent such prior acts or omissions cannot be deemed to be covered by this Article IX, the right of any individual to indemnification shall be governed by the indemnification provisions in effect at the time of such prior acts or omissions.

Section 9. Insurance. The Corporation may purchase and maintain insurance on behalf of any person who is or was a Director, officer, employee or agent of the Corporation, or who is or was serving at the request of the Corporation as a Director, officer, partner, trustee, employee benefit plan or other enterprise, against any liability asserted against or incurred by the individual in that capacity or arising from the individual's status as a Director, officer, employee or agent, whether or not the Corporation would have power to indemnify the individual against the same liability under this Article XVI.

Section 10. Additional Definitions. For purposes of this Article X, references to the "Corporation" shall include any predecessor entity of the Corporation in a merger or other transaction in which the predecessor's existence ceased upon consummation of the transaction. For purposes of this Article X, "serving an employee benefit plan at the request of the Corporation" shall include any service as a Director, officer, employee or agent of the

 - a. This would include, when possible, natural supports.
4. The quality of programs and services offered individuals will be maintained over quantity of programs and services offered.
5. The President/CEO shall be responsible for defining and maintaining these levels of quality, based upon regulatory standards and criteria and identified habilitation needs of individual served.
6. The President/CEO shall have the latitude to augment these general guidelines with administrative decisions consistent with characteristics of current staffing, voluntary donations, and other financial and social realities which affect strategic planning.
7. The President/CEO shall assume implementation of these guidelines in planning for and managing for each fiscal year.
8. The Executive Committee of the Board of Directors of ADEC shall monitor executive performance by reviewing deployment of resources and individual served, compared with ADEC's budgetary process and strategic plan.

persons with disabilities when family contact and involvement is contraindicated or when the rights of those served are being jeopardized. INFORMATION MEASUREMENT AND MANAGEMENT SYSTEM

POLICY:

ADEC proudly advocates for and serves people with developmental disabilities and intellectual disabilities so they live lives full of informed choice and possibility. To support this mission, it is ADEC's policy to collect data and information which are reliable, valid, complete and accurate to manage and improve the organization and service delivery.

Includes the annual analysis and reporting of Performance Measurements (*Formerly known as Outcome Measurements, Effective July 1, 2020 as outlined in the new 2020 CARF Standards*).

Responsible: President / CEO
Latest Revision: 6/23/2021

SCOPE:

Annually, ADEC reports to the Board of Directors a comprehensive review of program Performance Measurements (*formerly known as Outcome Measurements, effective July 1, 2020*). To be the provider of informed choice for the individuals served and families we serve, ADEC continues to monitor and assess its performance against a series of service indicators and targets. These indicators – actions and goals – are measured and tracked to determine the degree to which we are achieving the desired services and individuals served outcomes.

A critical component of quality, the implementation of performance measurements and management systems allows ADEC to look objectively at how well we are accomplishing our mission to “proudly advocate for and serve people with developmental and intellectual disabilities so they live lives full of informed choice and possibility.”

For each business function and service delivery program, performance objectives include indicators for effectiveness of services, efficiency of services, service access, and experience (satisfaction) with service delivery from a variety of perspectives including the persons who received the services and other stakeholders.

DEFINITIONS:

Measurement Category	Definition
Effectiveness	Results of services. Results and achievements for persons receiving services.
Efficiency	Costs, responsiveness, timeliness, cost effectiveness, relationship between resource use and results. Cost to benefit ratios.
Individual served Experience	Individuals served responses regarding how they feel about their individual service plans and outcomes (information secured during ISP meetings, exit meetings, special questionnaires mailed to Individual served, Appreciative Inquiry Interviews etc.)
Other Stakeholder Experience	Stakeholder’s experience with services
Access	Persons getting into service – serving target populations in need, timeliness of program entry, waiting time, address one of the barriers to getting services such as financial, accessibility, attitudinal etc. ADEC is not the gatekeeper for entry to most of our services. We do need however to address access issues once individuals served are made eligible by the funding source and they have selected ADEC as a provider.

CARF standards require organizations to demonstrate how it addresses reliability, validity, completeness and accuracy in its Information Management and Performance Improvement System. Members of the Program / Service Leadership Team are expected to be able to explain how they achieve each of these expectations and how this information system guides organizational decision-making.

Term	Definition	Example
Reliability	Steps are taken to ensure that data are collected consistently in a way that could be reproduced at another time or by other data gatherers.	New and existing personnel are trained on recording each data element they are responsible for collecting; measures or codes are explained periodically.
Validity	Indicators, Measures, and data elements are selected that measure what we intend to measure.	Stakeholders express interest in returning to work and minimizing days lost due to incapacity for persons referred to the program. The organization chooses to collect employment status at follow-up and asks about the number of days' work lost due to activity limitations instead of just the diagnostic data it has always summarized.
Completeness	Steps are taken to ensure that the data used for decision making are as complete as possible; no accredited programs are omitted from the information and performance improvement effort; no groups of persons served are omitted from the data gathering or analysis no data elements or indicators are systematically missing; database is checked for completeness before final analysis and decision making.	Staff training for the data-recording activities includes attention to the importance of recoding each data field for every person served.
Accuracy	Steps are taken to ensure that data are recorded properly and that errors are caught and corrected.	Spot checks of the records are done to ensure accuracy.

 - c. **Completeness** – steps will be taken to ensure that the data used for decision making are as complete as possible.
 - d. **Accuracy** – steps will be taken to ensure that data is recorded properly and that errors are caught and corrected.

2. Program/Services Risk Management Assessment

Risk Management Assessment for each of the program areas is developed from input and discussion with the program and services leaders up to their respective Executive Leaders with the overall reporting responsibility to the Quality Assurance Committee. The Quality Assurance Committee has the responsibility, led by the Executive Program Vice Presidents and President / CEO direct reports, with input from program leaders and service leaders, to develop a new plan, annually, for the following year.

Input is given across all program / service areas to create a combine list of Area of Risk, Level of Risk, Areas of Impact and Action plan to Reduce Risk which should have identified action items that may be taken to help reduce or mitigate risk.

#	Areas of Risk	Level of Risk <i>(Likelihood)</i>	Level of Risk <i>(Impact)</i>	Enterprise Risk Management Category	Areas of Impact	Course of Action to Reduce Risk <i>Identified action items that may be taken to help reduce or mitigate risk</i>
---	---------------	--------------------------------------	----------------------------------	-------------------------------------	-----------------	---

New for 2020 was the addition of Pandemic. Twenty-seven discrete and inter-related areas of risk were compiled. This comprehensive list of Risks is included at the end of the report. The areas of risk are mapped to ERM to form the Risk Matrix.

3. Risk Assessment Risk Matrix

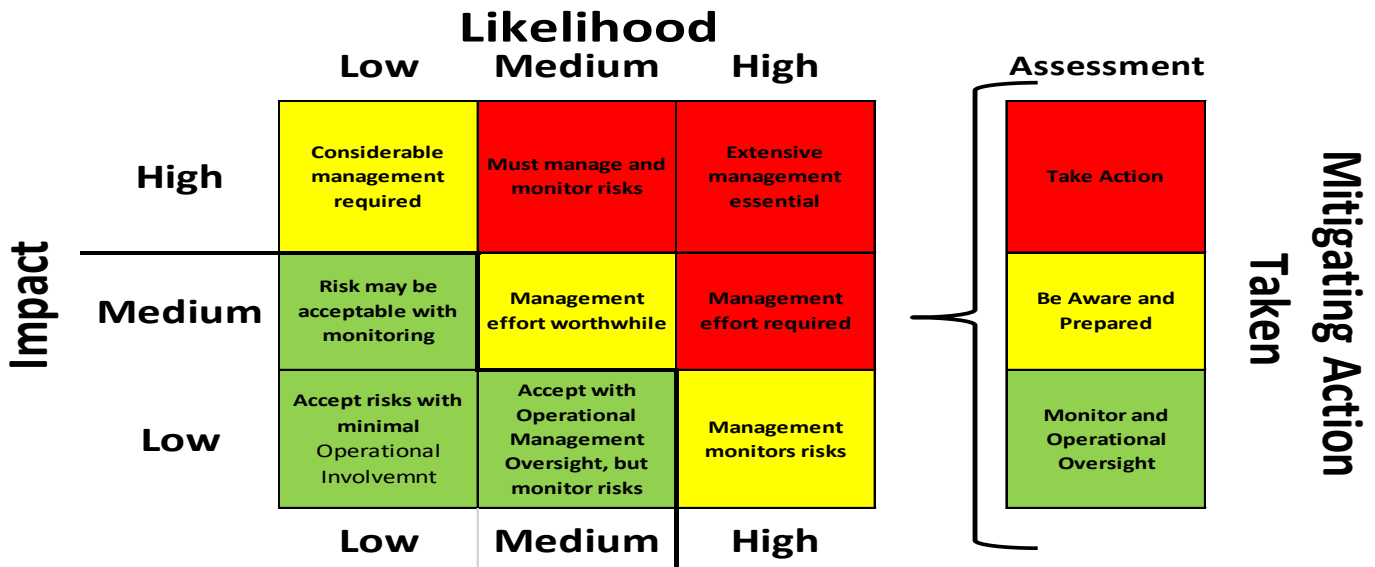

The comprehensive list of Areas of Risk is mapped to ERM to form the Risk Matrix. This combines to reflect:

- Likelihood of Risk - Low, Medium, High;
- Impact of Risk - High, Medium, Low; and
- Mitigating Actions Taken.

Risk is color coded to visually identify high risk (red), medium risk (yellow) and low risk (green).

Areas of Risk are mapped to level of Risk and Assessment of Impact to Agency.

Risk Management Matrix

4. Statement of Assurance

Statement of Assurance is required annually by the following roles to the President / CEO of the agency:

- VP Finance
- VP Human Resources
- VP Chief Program Officer
- VP Maintenance and Transportation
- VP Protective Services

Evaluation of actions is taken annually, at the end of calendar year, through a collaborative discussion, evidence-based review, to indicate from the perspective of the executive leadership team, direct reports to the President / CEO, if the action plan(s) were effective for each area of risk.

The assertion means that effort, activities and deliverables were executed and implemented throughout all of calendar year, across the program areas and service functions, to meet the intent to reduce and / or mitigate level of risk in the areas identified.

Actions taken would include many of the identified action plans in the Risk Management Plan and the ongoing incorporation of Enterprise Risk Management across agency operations. Evidence can be seen through documented Relias training, conformity and compliance with any required certifications and state level requests, documented incident reporting, updated provided through monthly management results, external audit reports, all compliance and financial reporting requirements and successful reimbursement of services provided.

OVERVIEW

“ADEC proudly advocates for and serves people with developmental and intellectual disabilities so they live lives full of informed choice and possibility.”

To preserve and enhance ADEC’s reputation, everyone associated with ADEC, including its Board of Directors, management and staff members, must share a commitment not only to ADEC ’s mission but also to compliance with the numerous laws, regulations, and policies that govern ADEC ’s conduct.

The Corporate Compliance Plan summarizes both the internal and external provisions that govern various legal and ethical requirements for community non-profit organizations. The compliance plan is composed of three basic elements:

- A. Code of Conduct for employees and Board of Directors members
- B. “Whistle-Blower” Policy
- C. Records Retention Policy

A failure to follow existing legislation and regulatory requirements can damage ADEC ’s reputation and threaten its ability to carry out its mission. Unlawful behavior also may result in criminal liability and fines. Individuals who knowingly violate or recklessly disregard this Compliance Plan, or the laws, regulations and policies which govern ADEC, will face severe consequences, including termination of employment or removal from the board of directors.

ADEC ’s ability to achieve compliance with the law depends upon its ability to recognize, avoid, and remedy existing problems. ADEC ’s compliance, therefore, depends not only upon a choice to “follow the rules” but also an obligation to its mission, its institution, and all those who serve ADEC in any capacity.

A. CODE OF CONDUCT

Introduction

ADEC recognizes that there may be instances where an employee or Board Member may learn of practices at ADEC that may be of concern. While there are many ways for an employee or Board Member to address those concerns, ADEC recognizes that the choice will likely depend upon relationships with the individuals involved in the conduct at issue; upon relationships with supervisors; or upon knowledge of the laws, regulations and policies governing the practice that is of concern.

ADEC wants to assure employees and Board members that this Compliance Plan as well as the Compliance Officer exists to help them when they are unable, for any reason, to assure themselves that the conduct in question is in fact appropriate, or if an individual believes that the problem has not been effectively remedied. In those instances, ADEC fully expects that individuals will promptly inform their supervisor or the Compliance Officer of the issue.

The Compliance Officer is committed to ensuring full compliance with all existing laws, rules, regulations, protocols and policies that govern ADEC.

The Compliance Officer

The Vice President of Human Resources has been appointed by the President/CEO as the ADEC Compliance Officer to aid in identifying any potential areas of non-compliance through audits, to assist as appropriate in investigating areas of concern raised by employees, Board Members or by others, and to propose potential remedial actions.

The Compliance Officer is responsible for overseeing the development and implementation of policies and procedures that govern ADEC's compliance efforts, informing individuals of this Compliance Plan, and for providing any necessary training. These policies and procedures will be reviewed at least annually and revised if necessary. The Compliance Officer's work will be confidential and privileged to the extent permitted by law. If requested, the Compliance Officer also will make all reasonable efforts to protect the identity of the reporting individual. When the Compliance Officer completes any necessary investigation, or implements any necessary steps to address the problems detected, the Compliance Officer will, whenever appropriate, inform the reporting individual of the result of the investigation and of any action taken concerning the issue presented.

The Compliance Officer reports directly to the President and Chief Executive Officer.

The Process

ADEC employees and Board of Directors members are strongly encouraged to bring any concerns regarding violations of this Code of Conduct to the attention of their supervisor or the Compliance Officer. Reports may be made in person, in writing, or over the telephone. Written communications should be marked "CONFIDENTIAL." Although reports may be made anonymously, for the supervisor or the Compliance Officer to obtain more information from or respond to the reporting individual, the reporting individual should provide his or her name when the report is made.

All reports and communications received will be confidential and privileged to the extent permitted by law. In general, reports of violations and investigations will be addressed by line supervision. The Compliance Officer will serve as a resource to management staff and will conduct investigations as determined by the CEO.

Upon conclusion of the investigation, involved management staff or board leadership and the Compliance Officer will determine if any follow-up action is to be taken.

An annual report will be provided to the board of directors indicating if there had been any investigations of corporate compliance violations or that there had been none.

ELEMENTS OF ADEC'S CODE OF CONDUCT

The following summarizes the conduct expected from all our employees and individuals associated with ADEC, and highlights certain key areas where the potential for concerns may be significant. This Code does not replace ADEC's Policies and Procedures Manual or Personnel Policies Manual. See ADEC Policy [1.2.3 Ethics Adhered to at ADEC](#) for more details. It should provide additional guidance, make individuals sensitive to potential problems they may face, and help employees and board members to avoid pitfalls.

Key Areas

ADEC is subject to state, federal and local compliance legislation and regulations, together with various internal policies and protocols, including ADEC 's Policies and Procedures Manual and Personnel Policies Manual.

Summarized below are the general obligations arising in other key areas of our operations which include:

1. Conflicts of Interest.
2. Discrimination and Employment.
3. Gifts and Gratuities
4. Immigration
5. Information System Issues
6. Prevention and training
7. Not-for-Profit and Tax Exemption Considerations
8. Political Activity
9. Wage and Hour Issues
10. Billing

1. Conflicts of Interest

Conflicts of interest are defined as situations in which an individual may receive financial or material gain or business advantage from a decision made on behalf of another or from information gained through his/her responsibilities as an ADEC staff member or board member.

Further, a conflict of interest may arise where an employee or board of director's member stands to benefit personally from his/her association with ADEC, or where an employee or Board of Directors member is able to put his or her personal interests above those of ADEC. All ADEC employees and Board of Directors members have a duty of loyalty to the organization and, therefore, should avoid any actual or apparent conflicts of interest. While conflicts can arise in many different contexts, in general ADEC expects that all employees and Board of Directors members will put the interests of ADEC ahead of their personal concerns and will not seek to benefit themselves at the expense of, or because of, ADEC or their affiliation with ADEC. ADEC expects all its employees and Board of Directors members to become familiar with and adhere to policies in this area. Suspected violations should be reported immediately to supervision or the Compliance Officer. In certain instances, conflicts of interest or potential conflicts of interest, when disclosed, may be upheld pursuant to ADEC 's administrative and governance policies. ADEC board members shall complete an annual *Conflict of Interest Declaration* form.

2. Discrimination and Employment

ADEC is committed to equal opportunity and to the respect for human dignity. Unequal treatment or discrimination based upon gender, race, color, ethnicity, national origin, age, religious and/or spiritual beliefs, disability, sexual orientation, gender identity, gender expression, genetics, family or marital status, language, culture, political affiliation, socio-economic status, protected veteran status, or other non-performance or ability-related grounds is unacceptable. ADEC will hire, promote and retain individuals based upon their ability to meet bona fide occupational qualifications, and to effectively and efficiently discharge the obligations of their job. Similarly, ADEC does not condone and will not tolerate conduct that demeans or undermines individuals served or employees, or that creates or encourages a hostile or oppressive working environment. ADEC is committed to fostering, cultivating, and preserving a culture of diversity and inclusion. ADEC will not discriminate in the areas of employment, compensation, assignment of work or promotion practices.

ADEC proudly advocates for and serves people with developmental and intellectual disabilities so they live lives full of informed choice and possibility."

ADEC has developed and maintains various employment-related policies as set forth in the ADEC Policies and Procedures Manual and Personnel Manual. ADEC expects that all employees and Board of Directors members will be familiar with and will adhere to these policies. Questions or concerns should be directed to the Compliance Officer.

3. Gifts and Gratuities

Employees and Board of Directors members should be aware that the receipt or giving of gifts by ADEC personnel may raise questions about relationships with ADEC, vendors, governmental officials, or others with whom ADEC interacts. ADEC must always refrain from activities that could possibly be construed as an attempt to improperly influence these relationships. Employees and Board of Directors members should not offer or receive a gift in circumstances where it could appear that the purpose of the gift is to improperly influence ADEC's relationship with a vendor, regulator, or other person or entity.

It is ADEC's policy to reimburse its employees and agents for all reasonable expenses, including meals/travel, that are appropriately incurred while conducting ADEC's business. Rarely will justification exist for an individual to permit someone else to pay for such items.

Under certain conditions small gifts may be accepted by staff or board members. See ADEC Policy 2.1.15 Gratuities.

4. Immigration

ADEC is not permitted to employ anyone who is not a United States citizen, unless that person has an appropriate visa or other documentation that allows him or her to legally work at ADEC. If ADEC violates federal immigration laws, there could be significant civil or criminal liability. It is the policy of ADEC to fully comply with the immigration laws and, therefore, no person will be hired without presenting documentation of their citizenship or immigration status to our Human Resources Department. Any concerns regarding immigration issues should be brought to the attention of the Human Resources Department.

5. Information Systems Issues

ADEC employees and Board of Directors members are responsible for maintaining and protecting the information used by them in connection with their duties. For example, individuals must not make inappropriate or unauthorized modifications of information, or destroy or disclose information, except as authorized. Additionally, no individual may, without the prior written consent of ADEC, use for their benefit or disclose to others any confidential information obtained during employment or board tenure.

Documents containing sensitive data must not be left in public view or in an unsecured location. Individuals also must be careful when they enter, secure, and store computer data. If individuals whom they do not recognize are observed using terminals in their area, immediately report this to a supervisor. Any concerns regarding confidential information should be brought to the attention of the Compliance Officer or the HIPAA Privacy Officer.

Staff and Board of Directors members should be familiar with ADEC Policies 3.1.13 Electronic Data Security and 5.1.3 Confidentiality.

6. Prevention and Training

ADEC has established several internal controls which prevent or reduce the likelihood of fraud and misuse of agency assets and resources. ADEC Policies *3.1.6 Authorization, Incumbrance and Payment of Agency Financial Obligations*, *3.1.8 Interim Financial Reporting Procedures*, *3.1.12 Cash Management Policy* and the *SAS 99 Interviews* conducted by independent auditor's detail many of the organization's internal controls.

All staff receive an annual training on the ADEC Code of Ethics, ADEC Corporate Compliance Policy and Plan, fraud prevention procedures. Board members receive copies of these policies and annually sign declaration forms for Confidentiality, Conflict of Interest and Ethics. Financial services staff conduct ongoing procedure reviews during team meetings and document reviews as a matter of daily operating procedures.

7. Not-for-Profit and Tax Exemption Considerations

ADEC is exempt from taxation as a not-for-profit entity accomplishing a charitable purpose. To maintain this exemption, ADEC cannot act for the benefit of an individual or entity. Such conduct, commonly referred to as "private inurement," is improper. ADEC cannot authorize or pay compensation and benefits more than the "fair market value." Similarly, ADEC must receive fair market value for things such as space rented by individuals, or services or materials purchased by individuals. If fair market value is not paid or received, it could be determined that ADEC has allowed its exempt assets to benefit a private individual, and a private inurement violation can be established. Sanctions can include civil liability, including personal liability for board members, officers, and the individual receiving the improper benefit. Additionally, ADEC could lose its tax-exempt status. It is therefore crucial that private inurement issues be avoided. Questions regarding these issues or potential problems in this area should be referred to the agency's Chief Financial Officer or Compliance Officer.

8. Political Activity

Federal and state laws limit the way in which ADEC as an institution may participate in the political process. For example, ADEC is expressly prohibited by legislation and regulations from contributing to political candidates or officeholders. Employees and Board of Directors members, of course, may personally participate in the political process if they desire to do so. Such participation, to the extent it includes campaigning or soliciting political support or contributions, must take place off ADEC premises or at an ADEC sponsored event. Neither can ADEC's assets be used to support political activity or political candidates. Unless authorized, employees and Board of Directors members should not use their affiliation with ADEC in such a way as to suggest or imply that ADEC, as opposed to the individual personally, supports a candidate, party, or issue. Questions regarding these issues or potential problems in this area should be referred to the Compliance Officer.

9. Wage and Hour Issues

As an employer, ADEC is required to comply with all applicable wage and hour laws, and other laws governing the employment relationship. Employees are entitled to receive fair and equitable wages and benefits in connection with services provided to ADEC, and employees may receive overtime pursuant to applicable ADEC policies and contracts. Employees should report any concern or dissatisfaction concerning wage and hour laws, or other related provisions, to their supervisor or the Vice President of Human Resources. Employees should not be subject to retaliation or adverse employment action for making such a report.

10. Billing

ADEC proudly advocates for and serves people with developmental and intellectual disabilities so they live lives full of informed choice and possibility."

ADEC provides services for individuals served in our approved programs based on agreements with various funding sources such as Medicaid, Grants, Vocational Rehabilitation and Private Pay

ADEC program staff provide services and document following the requirements of each funding source. Upon receiving completed and approved documentation from the program staff, Financial Services bills for services based on procedures required, following the billing protocol for each funding source. Documentation is maintained electronically whenever possible; otherwise a copy of the paper documentation form is kept in the finance office. Program staff is responsible to review and approve documentation of services provided. Finance office staff review to see that statistical data such as dates, times, service codes and approvals are completed.

B. “WHISTLE-BLOWER” POLICY

In keeping with the policy of maintaining the highest standards of conduct and ethics, ADEC will investigate any suspected fraudulent or dishonest use or misuse of ADEC ’s resources or property by staff, board members, consultants or vendors. ADEC is committed to maintaining the highest standards of conduct and ethical behavior and promotes a working environment that values respect, fairness and integrity. All staff, board members, consultants, and vendors shall act with honesty, integrity and openness in all their dealings as representatives for the organization. Failure to follow these standards will result in disciplinary action including possible termination of employment or business relationships, dismissal from one’s board duties, and possible civil or criminal prosecution if warranted.

Staff and board members are encouraged to report suspected fraudulent or dishonest conduct (to act as a “whistle-blower”), pursuant to the procedures set forth below.

Reporting

A person’s concerns about possible fraudulent or dishonest use or misuse of resources or property should be reported to his or her supervisor or to the Compliance Officer immediately so a timely investigation can be conducted. If for any reason a person finds it difficult to report his or her concerns to a supervisor or to the Compliance Officer, the person may report the concerns directly to the President and Chief Executive Officer.

Alternately, to facilitate reporting of suspected violations where the reporter wishes to remain anonymous, a written statement may be submitted to Compliance Officer.

Definitions

Baseless Allegations: Allegations made with reckless disregard for their truth or falsity. People making such allegations may be subject to disciplinary action by ADEC and/or legal claims by individuals accused of such conduct.

Fraudulent or Dishonest Conduct: A deliberate act or failure to act with the intention of obtaining an unauthorized benefit. Examples of such conduct include, but are not limited to:

- forgery or alteration of documents;

- unauthorized alteration or manipulation of computer files;
- fraudulent financial reporting;
- pursuit of a benefit or advantage in violation of ADEC 's Code of Conduct, including its Conflicts of Interest Policy;
- misappropriation or misuse of ADEC resources, such as funds, supplies, or other assets;
- authorizing or receiving compensation for goods not received or services not performed; and
- authorizing or receiving compensation for hours not worked.

Whistle-Blower: An employee or other individual who informs a supervisor, the Compliance Officer or other party about an activity relating to ADEC which that person believes to be fraudulent or dishonest.

Rights and Responsibilities

Supervisors are required to report suspected fraudulent or dishonest conduct to their Vice President, Compliance Officer, or the President and Chief Executive Officer.

Reasonable care should be taken in dealing with suspected misconduct to avoid:

- baseless allegations
- premature notice to persons suspected of misconduct and /or disclosure of suspected misconduct to others not involved with the investigation; and
- violations of a person's rights under the law

Investigations

All relevant matters, including suspected but unproved matters, will be reviewed and analyzed, with documentation of the receipt, retention, investigation and treatment of the complaint. Appropriate corrective action will be taken, if necessary, and to the extent it is appropriate to do so, findings will be communicated back to the reporting person and his or her supervisor. Investigations may warrant investigation by an independent person such as auditors and/or attorneys.

ADEC will give its best efforts to provide guidance to whistle-blowers against possible retaliation. Whistle-blowing complaints will be handled with sensitivity, discretion and confidentiality to the extent allowed by the circumstances and the law. Generally, this means that whistle-blower complaints will only be shared with those who have a need to know so that ADEC can conduct an effective investigation, determine what action to take based on the results of any such investigation, and in appropriate cases, with law enforcement personnel.

Employees, consultants and Board of Directors members of ADEC may not retaliate against a whistle-blower for informing management about an activity which that person believes to be fraudulent or dishonest with the intent or effect of adversely affecting the terms or conditions of the whistle-blower's employment, including but not limited to, threats of physical harm, loss of job, punitive work assignments, or impact on salary or fees. Whistle-

blowers who believe that they have been retaliated against may file a written complaint with the Compliance Officer, Board Chair, or President and Chief Executive Officer. Any complaint of retaliation will be promptly investigated and appropriate corrective measures taken if allegations of retaliation are substantiated. This protection from retaliation is not intended to prohibit supervisors from acting, including disciplinary action, in the usual scope of their duties and based on valid performance-related factors. Whistle-blowers must be cautious to avoid baseless allegations as described earlier in the “definitions” section of this policy.

Investigations should be completed in a timely manner. Within 30 days or sooner if possible and longer should circumstances require.

C. RECORDS RETENTION POLICY

The goals of this policy are:

- to ensure that all non-critical records are retained for no longer than the minimum period required by law;
- to eliminate accidental or innocent destruction of business records;
- to ensure that all critical records are retained for a sufficient period; and
- to ensure that records are destroyed only pursuant to a standard policy which has been developed for business reasons.

This policy shall apply to all records regardless of whether the records are stored on paper or on computer hard drives, disks or other electronic media. See ADEC Policies and Procedures Manual policy [6.2.1 Records Retention and Destruction](#).

The legally-required retention periods set forth in this policy presumes the operation of ADEC in the “ordinary course of service provision.” Destruction of records relating to litigation or governmental investigations may constitute a criminal offense. The President/ CEO shall be responsible for suspending destruction of any records as soon as litigation, federal government investigation, civil action, audit by a governmental agency or enforcement proceeding is suspected, reasonably anticipated or is commenced against ADEC, its officers, board of directors or employees. The President/CEO shall be responsible for notifying individuals at ADEC responsible for record retention activities to ensure that destruction of records is suspended until the litigation, investigation or proceeding is complete.

The Sarbanes-Oxley Act of July 30, 2002, makes it a crime to alter, cover up, falsify, or destroy any document to prevent its use in an official proceeding. Failure on the part of employees or board members to follow this policy can result in possible civil and criminal sanctions against ADEC and its employees and possible disciplinary action against responsible individuals up to and including termination of employment or board membership. Each employee or board member has an obligation to contact their supervisor or Compliance Officer of a potential or actual litigation, external audit, investigation or similar ADEC proceeding involving ADEC that may have an impact as well on the approved records retention schedule.

DEFINITIONS:

A permanent absence is one in which it is firmly determined that the President / CEO will not be returning to the position. It may have been planned or an unplanned permanent absence.

An unplanned emergency or extended temporary absence is one in which the President / CEO is on leave per agency policies and is expected to return to his/her position. In the event of any accident, illness, or other condition due to which the President/CEO cannot provide administrative direction and coverage for the organization, for extended periods, defined as six or more weeks.

The Board Executive Committee is a sub-committee of the Board consisting of the Chairperson, Vice Chairperson, Secretary, Treasurer, Past Chairperson, and the Ex-Officio President/CEO. If needed, the Board may also call upon the Vice President of Finance/CFO and / or the Vice President of Human Resources to serve as an ex-officio member of the committee.

PROCEDURE:

Permanent absence - In the event the President / CEO of ADEC is no longer able to serve in this position, as defined as leaving the position permanently, the Executive Committee of the board of directors shall do the following:

- 1.) Within five business days appoint an Interim-CEO according to the following guidelines:
 - a. select one of the agency's vice presidents – VP Finance or VP Human Resources, or
 - b. contract with and external consultant experienced as an Interim-CEO, or
 - c. appoint a member of the board of directors.

- 2.) The CEO Executive Leadership Team, defined roles reporting to the President / CEO, may be requested by the Board of Directors to make a recommendation to the Board Chairperson as to who should assume responsibility of “Acting Chief Executive Officer” if the President/CEO is absent for an extended period, excess of six weeks, as noted above.
- 3.) Within fifteen business days the Executive Committee will convene for directing and executing succession plan. It shall be the responsibility of the Executive Committee to implement the following transition activities:
 - a. Communicate with key stakeholders regarding actions taken by the Executive Committee in naming an interim successor and implementing the succession plan.
 - i. It is recommended that the Executive Administrative Assistant maintain a list of key stakeholders who must be contacted. This can include state agency personnel, local community leaders including the United Way of Elkhart County, governmental agencies, and others.
 - b. Consider the need for consulting assistance (e.g. transition management or executive search consultant) based on the circumstances of the transition.
 - c. Review the organization’s current budget and organization and conduct a brief assessment of organizational strengths, weaknesses, opportunities and threats to identify priority issues that may need to be addressed during the transition process and to identify attributes and characteristics that are important to consider in the selection of the next CEO.
 - d. Establish a time frame and plan for the recruitment and selection process.
 - e. The Executive Committee may seek the assistance of remaining leadership team or other board members to carry out parts of this process.
 - f. The Executive Committee will present to the full board their recommended candidate for approval to fill the vacancy.

The Executive Committee may choose to use similar procedures in case of an executive transition that simultaneously involves the President / CEO and other key program leadership roles. In such instance, the Executive Committee may consider temporarily subcontracting some of the organizational functions from trained consultants or other organizations.

Unplanned and/or extended temporary absence, emergency absence - When a temporary change in the President / CEO role, such as an illness or leave of absence is required, as in the event of an unplanned, emergency, temporary absence of the President / CEO, the following is to occur:

 - b. If the primary appointee for Acting CEO Appointee is new to his/her position and inexperienced with the organization, less than 3 years, or is unavailable to serve in this capacity, the Executive Committee may decide to select a back-up appointee to the Acting CEO Appointee. The Executive Committee may also consider the option of splitting executive duties among one or more

appointees.

- c. The Executive Committee will give immediate consideration, in consultation with the Acting CEO Appointee, to temporarily filling the management position left vacant by the Acting CEO Appointee. This is in recognition of the fact that for a term of more than three months, it may not be reasonable to expect the Acting CEO Appointee to carry the duties of both positions. The temporary position would focus on covering the priority areas in which the Acting CEO Appointee needs assistance.

Immediately, upon transferring the responsibilities to the Acting CEO Appointee, the Board President will notify staff members and the Board of Directors. As soon as possible after the Acting CEO Appointee has begun covering the unplanned absence, board members and the Acting CEO Appointee shall communicate the temporary leadership structure to key external supporters of the organization. PURPOSE:

The purpose of this policy is to provide procedures that may be used in the event of an emergency to assure the health, well-being and safety of all individuals served and ADEC, Inc. employees in the event of a pandemic, extensive man-made or natural disaster or emergency, that is beyond a small singular event such as an inclement weather event.

Nearly all individuals served by ADEC, Inc. are under federal and state funded programs that provide Medicaid reimbursed services under the definition of Centers for Medicare and Medicaid Services (CMS). On September 8, 2016, the Federal Register posted the final rule *Emergency Preparedness Requirements for Medicare and Medicaid Participating Providers and Suppliers*. The regulation went into effect on November 16, 2016. Health care providers and suppliers affected by this rule must comply and implement all regulations one year after the effective date, on November 15, 2017. ADEC’s Supervised Group Living Program qualifies as an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IDD) provider that is required to meet these guidelines.

This policy is intended to meet the Indiana State Department of Health, Code of Federal Regulations (CFR) Citation 483.475, as made available November 2016, to support of Residential Program Sites – Supervised Group Living. The contents of this policy or direct reference to material in other policies, procedures and manuals located at the residential locations and on the L: Drive, which is a secured information technology virtual storage, are intended to meet this defined requirement.

It is ADEC’s intent to apply any or all the procedures, as applicable, to other program areas primarily funded through waiver, facility-based day services, residential supportive living and administration.

By using an ongoing process of training, practice, and evaluation, ADEC, Inc. strives to have a greater assurance that the ADEC personnel may know what is expected of them in an emergency and act accordingly.

Some of the key items taken into consideration in the development of the ADEC emergency preparedness training and exercise program for the designated facilities, specifically focusing on residential sites to be compliant with 483.475:

- Make “disaster preparedness” a part of new employee orientation and ensure that all employees receive the training – in new ADEC personnel orientation and annually - with content such as inclement weather, tornado, earthquakes, bomb threat, and active shooter.

- Provide refresher training on disaster preparedness for all ADEC personnel on a routine annual basis, recognizing that some will require more frequent training because of their specific roles and responsibilities.
- Exercise all portions of ADEC’s Emergency Preparedness Plan, in accordance with the training and exercise schedule described in the plan.
- Use a variety of training and exercise approaches, including discussion-based tabletop exercises and facility-based drills.
- Conduct exercises that may include representatives from the fire department, local law enforcement, the local health department, the emergency management office, the Red Cross and any utility provider.
- Exercise all vendor and mutual aid agreements identified in the Emergency Preparedness Plan to be sure of their continued viability, particularly evacuation transportation agreements, receiving facility agreements, and energy/generator agreements.
- Evaluate all training and exercise activities and use the information to make improvements to the Emergency Preparedness Plan and training and exercise schedule – completed annually.
- Develop relationships with local emergency management office and health departments and participate in training and exercise opportunities they might sponsor.

SCOPE:

ADEC is committed to try all reasonable efforts to furnish services in a manner that protects the health, well-being, and safety of individuals served and employees. Actions will be taken in the best interest of individuals served as soon as possible during an emergency.

This scope of this procedure is to provide guidance, information and tools, by utilizing an “all-hazards” approach for disruptive events such as, but not limited to:

- Pandemic flu and virus
- Tornados
- Fires
- Winter / Storm Inclement Weather
- Power Outages
- Chemical spills
- Nuclear or biological terrorist attack
- Septic and trash disposal
- Shelter in place

In the event of a declared emergency areas(s), the appropriate executive vice president and/or directors of program areas, should contact their state survey agency regarding their status and future. There are times when a public health emergency may result in consequences beyond ADEC, Inc.’s control.

EMERGENCY PREPAREDNESS

Four Core Elements

There are **FOUR CORE** elements of the Emergency Preparedness Program.

These elements are to be reviewed and updated annually.

I. Risk Assessment and Planning

ADEC, Inc. developed an Emergency Preparedness Plan using all-hazards approach, including planning and identifying in advance essential functions and who is responsible in the event of a crisis. It is based on a risk assessment, with intentional focus on residential owned sites and 24x7 individual(s) rented sites in the Supervised Group Living and Supportive Living Programs. The risk assessment uses an “all-hazards” approach, focusing on capacities and capabilities. Procedures are identified to address disruptive events, plans for evacuating or sheltering in place, or providing continuity of services in other ADEC locations. Other elements of this include succession planning, administrative and operational coverage, location identification and capabilities, vehicles and personnel re-assignment. The emergency plan is reviewed annually.

II. Policies and Procedures

ADEC, Inc. developed based on the plan, such as medical documentation, evacuation or shelter and place. There are developed and implemented policies and procedures based on the emergency plan and risk assessment using the Enterprise Risk Management approach (Policy 3.1.9) and defined Safety Manual(s), Policy 11.0. These policies and procedures include addressing subsistence needs, evacuation plans, procedures for sheltering in place, tracking individuals served and employees during an emergency.

III. Communication Plan

ADEC, Inc. identified alternate means of communication, provide information to local authorities sharing medical information, and provide occupancy information and the ability to aid other facilities in the community. ADEC, Inc. communication plan includes key names and contact information for ADEC personnel, other hospitals, emergency shelters, and appropriate state officials. In addition, ADEC, Inc. is addressing primary and alternate means of communicating with ADEC personnel identified as well as how to contact local emergency plan officials and agencies. In addition, addressing a method to share medical records and patient information including general condition and location.

IV. Training and Testing Program

ADEC, Inc. has a requirement and utilizes Relias, a training learning software system, to assign, monitor, and track training requirements across all employees and programs. ADEC personnel is trained and tested through the use of drills, hands-on, and competency-based approaches. It is recognized that given the community based inclusive residential settings as well as day service facilities, a community-based full-scale exercise may not be feasible. Therefore, at ADEC facilities, there are regularly scheduled and documented emergency drills including evacuation of facilities to meet the individual, facility-based exercise.

Table-Top exercises may be performed lead by a facilitator from either Red Cross or County Emergency Management. Table-top Exercise (TTX): A table-top exercise is a group discussion led by a facilitator,

using narrated, clinically relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan. It involves key personnel discussing simulated scenarios, including computer-simulated exercises, in an informal setting. TTXs can be used to assess plans, policies, and procedures.

Procedure

The Emergency Preparedness Plan, EPP, identifies overall agency-wide procedures that cross programs where individuals served have facility based and/or residential services, especially 24x7 ADEC, Inc. owned and/or support sites.

Throughout document, procedures may be referred to specific ICF/IDD Supervised Group Living procedures that are established to specifically address Residential Site needs and are found in the supervised group living residential locations and on the L: Drive Residential Manual.

Emergency Preparedness Plan Implementation Steps

The determination to evoke the EPP is by the decision and direction of the President / CEO. An event of such severity, or extreme consequences, such as the disruptive events identified, and /or local and state officials declare a state of emergency may lead to having the EPP evoke.

If warranted, through calls and contact with the executive leadership team, primarily the appropriate executive vice president of operations, services, programming and the President and CEO may:

1. Immediately call an emergency meeting with all members of the executive leadership team meeting, if possible, at the Bristol Campus,
2. Crisis management actions including the EPP as well as crisis management statements will be implemented,
3. The EPP steps may be implemented in their entirety or only those as needed, and / or
4. President/CEO will notify the Executive Committee, Board of Directors, via email or phone.

Part C. Emergency Preparedness Plan Checklist

Part A. Emergency Preparedness Plan

I. Succession Planning

Policy 1.2.9 Succession Plan Policy - It is the policy of the ADEC, Inc. Board of Directors to be prepared for an unplanned emergency change in the President / Chief Executive Officer (CEO) leadership of the organization. It is also the policy of the board of directors to assess the current and future leadership needs of the organization to help insure the selection of a qualified and capable leader.

Operational coverage for executive leadership and program / service leadership is defined in *Policy 1.3.3* and addressed under Continuity of Operations.

II. Continuity of Operations

Continuity of Operations is a process of identifying, creating, testing, implementing systems of prevention and recovery to deal with potential threats to ADEC, Inc's ability to provide services and maintain the health, well-being, and safety of individuals served and employees.

ADEC acknowledges when CMS approves Medicaid Section 1135 Waivers (When the President of the United States declares a disaster or emergency under the Stafford Act or National Emergencies Act and the HHS Secretary declares a public health emergency under Section 319 of the Public Health Service Act), and under 42 CFR 483.475 (b)(7) and understands that relocation at the time of a disaster may alter standards of care. The facility will more-likely-than-not form a deliberate partnership with like agencies as meeting the need of those within our care is top priority.

In order to request the waiver, the appropriate Executive Vice President will contact the Indiana State Department of Health by phone at 1-800-433-0746.

Policy 1.3.3 Administrative and Operational Coverage

The President/CEO of ADEC, Inc. shall ensure that plans are in place for the overall administrative coverage and operational performance of the organization in the event of his/her absence, short or long term, for any reasons, as well as a defined leadership for the organization. Each direct report to the President / CEO, the executive leadership Team, is responsible for the overall execution of service deliveries, compliance with all regulatory requirements, adherence to ADEC, Inc. policies, implementation of all human resource requirements and at a minimum, the essential functions identified in policy.

Functional List of Critical

Each Function area of responsibility must have at a minimum:

Management will annually review agency insurance policies to evaluate the adequacy and cost effectiveness of risk coverage.

This policy is designed to help identify areas of risk and minimize risk exposure by having policies, procedures and practices and in place to ensure that our individuals served, employees, assets, functions, objectives, operations or members of the public are not adversely impacted by risks that threaten ADEC.

ADEC proudly advocates for and serves people with developmental and intellectual disabilities so they live lives full of informed choice and possibility.

If emergency protocol is invoked, vehicles are readily identified to be deployed to other facilities. In addition, ADEC has on payroll Transportation Drivers, all who have CDL's, which will be used to transport individuals served if their normal transportation route is cancelled. Human Resources tracks CDL renewal dates.

All ADEC employees are required to have a valid driver's license and vehicle insurance. This is identified in the Personnel Manual available to all employees on the secured ADEC website, www.adecinc.com. In addition, all new hires are provided a copy of the manual.

ADEC personnel will be notified in person, by phone or text, or e-mail, for their need to assist in an emergency. In those events where facility-based, day service, locations are not going to be open, the trained support ADEC personnel, direct support professionals, at each of those locations may be given the opportunity to meet the ADEC personnel needs at the residential locations.

- This will be set up at each of the day service locations, with ADEC personnel trained on person served specific requirements, with a roster (list) of employees opting-in for reassignment. All new ADEC personnel, and updated as needed, will be given an opportunity to be considered for this work.
- The Program / Service Leadership is responsible for maintaining the list of employees as well as a “call-tree” to ensure ability to contact employees.

Non-residential administrative ADEC personnel and other ADEC personnel in non-direct care roles may also be contacted to perform non-medical or care activities in the residential locations, such as house cleaning, cooking, entertain/engagement with individuals served.

Any volunteers used by ADEC must have completed a background check and training. Volunteers, if used, may be asked to complete non-medical or non-personal care activities.

In addition, the following actions are also to be implemented:

During an emergency, specific to residential locations in supervised group living and 24x7 supportive living, ADEC personnel will maintain an individual's "Red Binder" that includes all pertinent medical information about the individual. This binder is to stay with everyone during any relocation. If a group home needs to relocate, the relocation procedure will be implemented. If the relocation is larger than a single group home, a system will be implemented where individuals served will remain with their group home ADEC personnel and peers, and the appropriate Executive Vice President, and the Director of Group Homes and Director of Supportive Living, will maintain a list of where each individual is staying, and who the ADEC personnel are assigned to them.

- Executive Vice President and the Directors are responsible for making sure that ADEC personnel is in place and there is coordinated communication with internal and external sources. A ADEC personnel will be assigned to maintaining order with ADEC personnel and persons served in each location. A notebook, or similar form of documentation such as a tablet or computer, will document the name of each person relocated and the ADEC personnel assigned to them. Any time an individual move to another area, the notebook, or documentation, will be updated to reflect where they went and who is responsible for them.

If an ADEC facility-based program, including Day Services, Family Services and ADEC Industries, are forced to relocate, the first line of intervention will be calling the individual served residential provider, family member or guardian so that they may go home. All others may be given a wrist bracelet that has their name written on it, or some other distinguishing form of identification, and what program they attend.

- The Director of Day Services will insure that at each facility-based operation, an assigned ADEC personnel member is identified to make sure that the notebook, or equivalent documentation, in each area is properly maintained including if the individual left with a family/friend/guardian and are no longer in the direct care / responsibility of ADEC.

In helping facility orderliness and reduce the uncertainty and fear, ADEC's principle approach includes:

- Encourage both ADEC personnel and the individuals served to talk about expectations, anger, and/or disappointment;
- Work to develop a level of trust;

- Present an optimistic, favorable attitude about the changes in normal activities, potential relocation and temporary actions;
- Anticipate that anxiety will occur;
- Do not argue with the individual served;
- Do not give orders;
- Do not take the individual served behavior personally; use praise liberally;
- Be courteous and kind;
- Include the individual served in assessing problems;
- Encourage family and guardian participation; and
- Ensure ADEC personnel in that are unfamiliar to the individuals served introduce themselves.

In addition, all employees who have direct support care responsibilities and/or work primarily with individuals served are required to complete training annually on the Mandt system. The Mandt System is a training program that has 3 major components: Relational, Conceptual, and Technical:

- Relational Skills: focuses on teaching relationship, communication, and conflict resolution skills.
- Conceptual Skills: focuses on teaching positive behavior supports, liability and legal issues, and medical risks of restraint.
- Technical Skills: training in providing physical assistance, separation, evasion, and restraint techniques

The focus of the Mandt system is learning how to reduce or eliminate violence in the workplace by “supporting people, not just their behaviors”. The Mandt system revolves around building the positive relationships of people in an organization to create an overall healthy environment. The main goal is to teach ADEC personnel how to effectively manage a situation by regulating their emotions, response, and behaviors to positively interact with individuals served.

XI. Essential Business Functions

ADEC Inc. provides services to individuals that are vulnerable and require with varying degrees of support and coverage some level of daily support and daily personal care. There are functions or activities that must continue always, especially in the residential sites, even during and after an emergency.

These functions and activities are a subset of ADEC, Inc.'s normal operating functions. In determining what are the essential business functions, the Executive Leadership team discussed:

- Mission critical: Services necessary to achieving ADEC Inc's organization's mission,
- Business critical: Functions that the agency relies on to operate successfully, and
- Customer critical: Services that the individuals served depend on.

The identified essential functions may not operate at 100% during the emergency or the recovery time after. Many services may be performed at altered standards of care and delivery. For each of the essential function areas, the Executive Leaders of the area is responsible to identify the resources required to maintain the critical functions:

- Payroll
 - Time and Attendance – may be manual if electricity or internet is unavailable
- Accounting Systems – with primary support on billing of services and access to financial banking accounts/systems
 - Supplier and vendor payments is a secondary function
- Communication – externally to notify individuals served, guardians, community and employees

ADEC proudly advocates for and serves people with developmental and intellectual disabilities so they live lives full of informed choice and possibility.

XII. Billing - Notation

During an Emergency Management event, the appropriate financial recording and documentation of the events may be categorized as catastrophic/disaster related (CR) to ensure that a service provided and recorded on any Medicaid reimbursement is disaster related. If all the services on the claim, or billing, are disaster related, ADEC, Inc. should use the disaster related (DR) condition code to indicate that the entire claim is disaster related.

XIII. Testing and Training

All ADEC, Inc. employees are required to have annual documented training – assigned, tracked and monitored through Relias – on essential emergency drills such as those identified as All Hazards Approach – Disruptive Events.

The ADEC Safety Committee, as identified in *Policy 11.1*, is responsible to organize and/or coordinate safety education for ADEC personnel employed in the non-residential facilities. This education should include but is not limited to:

- New ADEC personnel orientation to the agency,
- First Aid and CPR certification for selected ADEC personnel, primarily direct support professionals,
- Training for back-up Building Administrator(s), identified for each of the non-residential facilities,
- Designated persons assigned specific responsibilities during evacuations and drills,
- Ensure annual safety training is conducted,
- Other safety education and awareness campaigns, and
- Persons served receive education designed to reduce identified physical risks.

This committee will work in cooperation with managers and ADEC personnel and is tracked via Relias. This committee also collaborate works with the residential site leaders – VP, Directors, QIDP's and managers, to ensure that agency wide required training is assigned, tracked and completed through use of Relias. In addition, information is shared to be included in the appropriate residential on-site safety manuals.

At the Residential locations, Supervised Group Living:

1. All emergency procedures that apply to residential group home sites will be reviewed with ADEC personnel upon beginning employment and thereafter on an annual basis. This training will be documented and retained in the Relias Training Software system.
2. Fire drills will be held monthly on all shifts at each residential site and tornado, severe weather, and other emergency drills will be held quarterly in all ADEC, Inc. residential sites with a drill on each shift at least once per quarter.
3. People receiving services will be trained according to the emergency procedures for each situation at each drill, as well as reviewed on a regular basis, both verbally and with individual house ADEC personnel, as needed. These emergency drills will be documented and retained in the Relias Training Software system. by the Program Director/QMRP, or other designee, and will be retained by the Program Director/QIDP at the residential location completing the emergency drill.

XIV. Inclement Weather Procedure

Policy 10.2 Inclement Weather Procedure Policy

ADEC is committed to the provision of its services during all regularly scheduled operating hours. Inclement weather may dictate the cancellation of transportation services, but agency doors will be open for business and programs will be available for individuals served able to get to their respective program sites. An exception may be a county-wide state-of-disaster/emergency as declared by the county sheriff or other state/local officials.

To protect the health, safety, welfare and well-being of the person served served and employees, ADEC may, during periods of severe inclement weather, cancel transportation services. ADEC has a responsibility to the individuals served, family and guardians to provide services as scheduled. The agency will be open for business and programs unless the county sheriff declares an emergency or the President / CEO determines closure is advisable.

XV. Temporary Housing

In the event ADEC must find temporary housing for individuals residing in group homes, ADEC has a working relationship with local hotels, such as Comfort Suites, to help facilitate emergency relocation. Specific to Comfort Suites North at 404 North Pointe Blvd. Elkhart, Indiana 46514 and Comfort Suites at 60971 US 31 South, South Bend, Indiana 46614 to provide temporary housing when a group home must be evacuated due to fire damage, residential problems and environmental and structural damage as defined as a Reportable Incident to the Bureau of Developmental Disabilities.

The procedure for relocating to the Comfort Suites:

- Program Manager notifies the Director of residential operations or Vice President to inform them of the need for a temporary residence
- The Director or VP will notify the Comfort Suites North (Elkhart) 574-206-1555 (South Bend) 574-2913100 to arrange accommodations.
- All clients will move to the Comfort Suites location
- Pharmacy will be notified if medications could not be removed from the home

On page 14 under communication is ADEC Messaging. I think it is more evacuation than messaging. Can we add:

Relocation procedure

ADEC personnel will ensure that the following items accompany each individual:

- Red Binder
- Medications (including any liquid nutrition
- Printed Medication Administration Records
- All medical equipment including oxygen, CPAP, nebulizer, etc.
- Personal care items i.e. briefs, catheter bags, ostomy supplies
- Change of clothing and small comfort item

Director of residential operations will ensure that guardians and/or family members are informed of the relocation. The Director will also ensure that all assigned personnel are informed of the relocation.

Part B. All-Hazards Approach – Disruptive Events

An all-hazards approach is an integrated approach to emergency preparedness planning that focuses on capacities and capabilities that are critical to preparedness for a spectrum of emergencies or disasters, including internal emergencies and a man-made emergency (or both) and natural disaster. ADEC has identified those disruptive events that are more-likely-than-not to occur in service area – Elkhart County and St. Joseph County – and may impact residential sites and non-residential sites.

All drills may be or can be actual drills or assimilated drills, where the potential scenario is discussed.

Detail information can also be found in the ADEC, Inc. Safety Manuals located on the L: Drive or the Residential Manual on the L: Drive.

A. Fire, Explosion, and/or Bomb Threat

1. A residential site, group home or a non-ADEC, Inc. leased apartment/housing, and the non-residential facilities may be equipped with one or more of the following fire safety alert and protection equipment:
 - a. Interconnected smoke detectors,
 - b. Fire extinguishers,
 - c. Pull stations to sound the fire alarm,
 - d. Single station, battery-operated detectors,
 - e. Sprinkler system with sprinkler heads and shut off
2. If there is a fire or smoke, or you receive a bomb threat in writing, via telephone, or verbally, **KEEP CALM!!!**
3. If there is a fire or explosion, **RESCUE** and move people from immediate fire area.
4. If there is a small fire, (less than the size of a basketball) and if ADEC personnel are able, fight fire with the proper extinguisher. The fire extinguisher is readily available in a designated area in each residential site.
5. If there is smoke or fire, **CONFINE** the immediate area by closing doors.
6. **ALERT** the building by pulling the fire alarm or activating smoke detector (if not already activated).
7. **EVACUATE** everyone from the building.
 - a. ADEC personnel will immediately go to any hearing-impaired person(s), sign "FIRE" and point to the nearest exit.
 - b. ADEC personnel will proceed to assure everyone leaves the building.

- i. ADEC personnel will check all rooms, beginning with floor/area presently on and assure the entire house has been covered.
 - ii. If time allows, ADEC personnel will close all doors and windows.
 - c. ADEC personnel will move individuals to a safe, common space, may be outside at the site vehicle or at a pre-determined area.
 - i. Group home residents – outside at the site vehicle that has been REMOVED from any interior or covered garage or pre-determined area.
 - ii. Supported Living individuals – outside in front in the building or at the designated building emergency gathering area.

Meeting at a predetermined area is best for supervision and easier evacuation, but only to the extent that it is safe for the individual and ADEC personnel person. ADEC personnel will then assemble at the site's designated safe area and assure that everyone is present.

8. Call 9-1-1 from a neighboring location or other location if the building has been evacuated. Give the address and inform them that people who have disabilities live or work there.
9. Do not re-enter the building until given the approval from police or fire department.
 - a. If unable to re-occupy the building, ADEC personnel will assure individuals served are transported to a designated safe area, such as another ADEC, Inc. group home, community shelter, police or fire station.
 - b. If unable to re-occupy the building, ADEC personnel will assure residents are transported to assigned locations.
10. In the case of a **bomb threat** (via phone):
 - a. ADEC personnel will not touch anything in the residence and will proceed to assure everyone leaves the building immediately.
 - b. ADEC personnel will check all rooms, beginning with floor/area presently on and assure the entire house has been evacuated.
 - c. ADEC personnel will move individuals to a safe, common space (meet outside) for better supervision and easier evacuation, but only to the extent that it is safe for the individual and ADEC personnel person. ADEC personnel will then assemble at the site's designated safe area and assure that everyone is present
 - d. **Call 9-1-1 from a neighboring location or other location** if the building has been evacuated due to a bomb threat. Give the address as the location of the site and inform them that people who have disabilities live or work there. ADEC personnel and individuals are to remain outside of the building and at least 100 feet away until further instructions are received from the police or the fire department.
 - e. Do not re-enter the building until given the approval from police or fire department.
 - i. If unable to re-occupy the building, ADEC personnel will assure persons served are transported (in case of bomb threat, do not get into personal or facility vehicles) to a designated safe area, such as another ADEC, Inc. group home, community shelter, police or fire station. If necessary, transportation to the location(s).
11. ADEC personnel will notify supervisory personnel, as soon as possible.
12. ADEC personnel will complete an Incident Report Form and submit the report to their supervisor and Director, Protective Services, within 24 hours of the incident.
13. ADEC personnel should also complete, if applicable, a Bomb Threat Report, as identified in Safety Manual Program, Policy 11.1 and give to emergency personnel.

B. Carbon Monoxide Exposure

ADEC, Inc. will monitor carbon monoxide detectors only in those residential sites and non-residential facility and administrative sites that utilize natural gas as an energy source. If the carbon monoxide detector sounds a loud alarm signal, it has sensed carbon monoxide. Only in rare cases will the detector ever false alarm.

IMPORTANT: As carbon monoxide levels start to build, the detector may sound intermittent alarm signals. This means that the detector is sensing some carbon monoxide. After several minutes, if carbon monoxide level continues to rise, the detector will go into full alarm. If the carbon monoxide detector sounds a loud alarm signal and you HAVE NOT pressed the test button:

1. **EVACUATE** the residence immediately.
2. **Consult a physician** if you or any individual is experiencing any symptoms of carbon monoxide poisoning. Carbon monoxide exposure/poisoning can cause the following symptoms:
 - a. **Mild Exposure:** slight headache, nausea, vomiting, fatigue (often described as “flulike” symptoms).
 - b. **Medium Exposure:** severe throbbing headache, drowsiness, confusion, fast heart rate, cherry red skin color, especially around the mucus membranes of lips and eyes.
 - c. **Extreme Exposure:** unconsciousness, convulsions, heart and lung failure, brain damage, and death. Discuss these symptoms with all household members. If symptoms are significant, immediately follow the procedure for Accident or Serious Illness, Policy 7.2.2 Health Emergencies – Individuals served.
 - d. Many cases of extreme exposure to carbon monoxide have shown that while victims are aware, they are not feeling well, they cannot function well enough to exit the building or get help.
3. **Call the local gas or oil company from outside the residence** and ask them to determine the source of carbon monoxide.
4. Do not re-enter the residence until the local gas or oil company says that the air is clear, and the problem corrected. If necessary, assure transportation to the other ADEC location(s) pre-determined in case of an emergency.
5. After the danger has passed and you have been given permission for the local authority, you may re-enter the premises.
 - a. If the detector is not in alarm, press the test button for 5-10 seconds. The alarm should sound. This means that the sensor has reset, and the detector is working properly.
 - b. If the detector is still in alarm, unplug the unit to silence the alarm. Open as many windows and outside doors as possible. Any remaining carbon monoxide will prevent the sensor from completely resetting.
 - c. Try plugging the unit in after one hour. If the detector still alarms, unplug the unit and repeat after 2, 24, and 48 hours. As the sensor uses material like what the body uses to detect carbon monoxide, it may take from 24 to 48 hours to recover.
 - d. If the detector stays in alarm, beeps about once a minute, does not alarm after pressing the test button, or does not reset within 24 to 48 hours, contact a supervisor or the Maintenance Department.
6. ADEC personnel will notify supervisory personnel, any on-call if applicable, as soon as possible.
7. ADEC personnel will complete an Accident / Incident Report, and submit the report to their supervisor and Director, Protective Services, within 24 hours of the incident.
8. If the source of the carbon monoxide was checked by a gas company, the Incident Report should include date, time, level of carbon monoxide, locations and sources checked, equipment used, and method of testing.

C. Accident or Serious Illness

ADEC, Inc. is committed to the protection of its individuals. In the event of an accident, injury, or sudden extreme illness, ADEC personnel will deal with the incident in a manner which is most appropriate to immediate needs. ADEC personnel will cooperate with each other in assuring that procedures are carried through in a calm and organized manner.

ADEC, Inc. will not disclose the medical condition of any individual receiving services or employees, except to treat the person, or to protect others from transmission of a disease (see ADEC, Inc. policies 9.1, 7.2.3 and 2.1.7).

Detail procedures are in **Policy 7.2.2. which also includes the Accident/Illness Form.**

1. Render needed emergency care, for example - first aid to stop bleeding, Heimlich, etc. If you are not trained, immediately contact a ADEC personnel who is. **If CPR is necessary, call 911 first before beginning CPR.**
 - a. Note, it is an ADEC policy that all support care ADEC personnel have annual CPR training and First Aid training.
2. If emergency transportation and/or treatment is needed, **ADEC personnel will call 911.** Be prepared to give details of the emergency.
3. If the situation is not urgent, and ADEC personnel are able to transport, ADEC personnel should call the hospital and inform the on-call physician that he is bringing the person to the hospital; then, a ADEC personnel member will transport to the nearest medical facility
4. If medical treatment is needed, ADEC personnel will send or take a completed Medical Referral form, for the injured or ill person served - the individual's Medical (red) book, and the individual's medications (depending on urgency) in the site's vehicle, or ADEC personnel vehicle, depending on the site.; any helpful items such as poisonous substances, labels, etc.
5. Inform the individuals served' physician.
6. ADEC personnel will notify supervisory personnel as per Policy 7.2.2 Accident / Illness Reporting.
7. Supervisory ADEC personnel will notify family, case manager, guardian and other significant persons involved in the individuals served' care.
8. ADEC personnel will complete an Accident / Incident Report form for all accidents and will report to their supervisor and Director, Protective Services. For illnesses, ADEC personnel will document all pertinent information in the individuals served medical record.

D. Dangerous Weather Conditions

ADEC, Inc. is committed to the provision of its services during all regularly scheduled operating hours. Inclement weather may dictate the cancellation of transportation services, but agency doors will be open for business and programs will be available for individuals served able to get to their respective program sites. An exception may be a county-wide state-of-disaster/emergency as declared by the county sheriff.

To protect the health, safety, welfare and well-being of the person served and employees, ADEC, Inc. may, during periods of severe inclement weather, cancel transportation services. ADEC, Inc. has a responsibility to the individuals served/parents/guardians to provide services as scheduled. The agency will be open for business and programs unless the county sheriff declares an emergency or the President / CEO determines closure is advisable. This is identified in **Policy 10.2 Inclement Weather Procedure Policy.**

1. Severe Weather and Natural Disasters - (Required Annual training / drills / new ADEC personnel orientation)
 - a. At first sign of dangerous weather conditions – such as extreme temperatures, high winds, heavy snow/rain - or a natural disaster – such as a flood) - confirm the location and safety of individuals. If in a vehicle when these conditions are detected, try to reach shelter as soon as possible. If on the highway, pull off the road or stop under an overpass.
 - b. Listen to local/NPR radio station and/or television for current weather information.
 - c. Judgment dictating, require all or specific individuals served to remain indoors and, if necessary, in a location easily monitored by ADEC personnel.
 - d. Assure all windows and doors are properly closed and fastened.
 - e. Should television, radio warning, civil defense siren sound and/or ADEC personnel judgment dictates, give directions to take shelter. In case of severe weather, avoid sheltering near windows or chimneys. Take shelter under stairwells, in closets, or in hallways. Cover your head. ADEC personnel should move all individuals to a designated “Emergency Shelter Space / Room”.
 - f. Take the emergency kit, which may include flashlight, transistor radio, from the residential site and/or site vehicle (location).
 - g. Turn on radio to local radio/NPR station. Listen for further instructions and the “all clear.”
 - h. If damage to the site or area renders the site unable to be occupied and/or a safety/health risk for the people who live there, the program director and program coordinator will assure relocation to other ADEC, Inc. services or other temporary housing in a safe place notifying involved team members. If necessary, assure transportation to the other ADEC, Inc. locations.
2. Tornado
 - a. The warning is a steady tone on the civil defense sirens for three to five minutes or the sighting of a tornado funnel. If in a vehicle when a tornado is sighted in the immediate area, Pull over in safe area way from power lines. Remain in vehicle with seatbelts on. Get below windows and cover head/neck. If you are outside with no place to go for cover, then lay in lowest part of ground, covering head/neck area to protect from flying debris.
 - b. Follow Severe Weather and Natural Disasters: Steps e, f, g, and h.
3. If injury or damage occurs, ADEC personnel will complete an Accident / Incident Report form and will submit it to the supervisor and Director, Protective Services within 24 hours. Should injury or damage be serious, a supervisor will be contacted immediately.

E. Additional Emergency Problems

1. **Water Disruption:** If there is no water available, use water from your prepared supplies. Notify the Office or the On-Call Supervisor. ADEC personnel should contact the local water company to report the issue. If water service is not restored within 24 hours, the ADEC personnel should seek alternative housing for persons served, such as hotel accommodations, with supervisory approval. If necessary, assure transportation to the other identified ADEC location(s).
 - a. Sprinkler Systems: If a water disruption occurs in an ICF-MR that uses an automatic sprinkler system, a “fire watch system” will be implemented. This applies to situations where there is no water available due to water disruption and any other situation that would lead to the sprinkler system being out of service for any reason, including but not limited to a leak in the system, system malfunction, or maintenance requiring more than four hours. Specifically, the fire watch system will mandate that a ADEC personnel on duty at the site will make rounds of the entire site every 15 minutes and record their rounds. The fire watch duties will be that assigned ADEC personnel

members only duties when this system is implemented, and that ADEC personnel person should not be responsible for their normal duties during that time.

- i. Notification of the implementation of this system must be made to the Program Director as soon as this concern is identified. If the water service is not operable for more than 4 hours within a 24-hour period, the Program Director will implement the Fire Watch System. The Program Director will identify one ADEC personnel on every shift to perform the duties of the Fire Watch system. The ADEC personnel will document their rounds on the Fire Watch Log.
 - ii. The Program Director will be responsible for notifying the Program Coordinator, insurance carrier, local fire department, and ISDH that this system has been implemented.
 - iii. ISDH Online Incident Reporting System must be notified by web reporting at: <http://www.in.gov/isdh/23638.htm>
- b. The following steps are to be followed for failure of the sprinkler system and/or fire alarm system:
- i. Notify the Program Director and Director of Maintenance and Transportation
 - ii. After 4 hours of the system being disabled, the fire watch procedure will begin and take place every 15 minutes. The trained ADEC personnel designated to conduct this will be identified at that time by the Program Director.
 - iii. A checklist will be utilized noting that the quarter hour checks has been completed and all areas on the interior premises, including all floors and the garage has been inspected. The check will end with a walk around the outside of the building and property.
 - iv. These checks will continue every 15 minutes until the fire system is adequately working. ADEC personnel will be trained on the fire watch system every 3 months during the review of emergency procedures at each home.
2. **Internal Flood:** In the event that an interior pipe breaks, and causes a flooding event to occur, ADEC personnel will immediately implement the relocation plan. If the facility is inhabitable, a temporary facility or residential setting will be sought.
3. **Ventilation Problem:** If smoke odors come from the ventilation system, **immediately call 911**. Vacate the home. If necessary, assure transportation to other identified ADEC, Inc. location(s).
4. **Electrical Failure:** In the event of a blackout, loss of electrical power, remain calm. ADEC personnel should contact the local electric company to report the power outage and contact On-Call Supervisor. Use flashlights. If necessary, use food and water from your prepared supplies. Use coats and blankets if necessary, to keep warm. Use a battery-powered radio. Stay away from downed power lines. Each home must assess the need for an alternative power source in the event of a power outage. The assessment should be based on the individuals served medical requirements, e.g. suction, nebulizer treatment, pressure mattress, etc. If it is determined that a power outage would create a medical emergency for the individuals served, the home should either have a small generator or the home should be evacuated immediately.
- a. If power is not restored within 24 hours, the ADEC personnel should seek alternative housing for persons served, such as hotel accommodations or other ADEC, Inc. locations, with supervisory approval. If necessary, assure transportation to the location(s) listed in section A.9. Fire Alarm Systems:
 - b. If the electrical failure occurs in a supervised group living home, a “fire watch system” will be implemented. This applies to situations where the fire alarm system is out of service for more than 4 hours in a 24-hour period due to an electrical failure, or at any time that the alarm system is out of service for any other reason, including but not limited to a lightning strike, other system malfunction, or for maintenance requiring more than four hours.
 - i. Specifically, the fire watch system will mandate that a ADEC personnel on duty at the site will make rounds of the entire site every 15 minutes and record their rounds. It may be

determined at the time of the emergency, that the fire watch duties will be that assigned ADEC personnel members only duties when this system is implemented, and that ADEC personnel person should not be responsible for their normal duties during that time. Notification of the implementation of this system must be made to the Program Director as soon as this concern is identified.

- ii. If the electrical service is not operable for more than 4 hours within a 24-hour period, the Program Director will implement the Fire Watch System. The Program Director will identify one ADEC personnel on every shift to perform the duties of the Fire Watch system. The ADEC personnel will document their rounds. The Program Director will be responsible for notifying the Program Coordinator, insurance carrier, local fire department, and ISDH that this system has been implemented.

1. ISDH Online Incident Reporting System must be notified by web reporting at: <http://www.in.gov/isdh/23638.htm>

- c. Fire watch procedures: The following steps are to be followed for failure of the sprinkler system and/or fire alarm system:

- i. Notify the Program Director and Maintenance Director
- ii. After 4 hours of the system being disabled, the fire watch procedure will begin and take place every 15 minutes. The trained ADEC personnel designated to conduct this will be identified at that time by the Program Director.
- iii. A checklist will be utilized noting that the quarter hour checks has been completed and all areas on the interior premises, including all floors and the garage has been inspected. The check will end with a walk around the outside of the building and property. ADEC personnel will sign off that this has been completed, on the checklist.
- iv. These checks will continue every 15 minutes until the fire system is adequately working. ADEC personnel will be trained on the fire watch system every 3 months during the review of emergency procedures at each home

5. **Telephone Failure:** Use a neighbor's phone or cell phone if available to call the On-Call Supervisor. If there is no phone in the area working nearby, stay in the home and keep everyone in the home calm.

6. **Public Transportation Failure or Temporary Gasoline Shortage** (for supervised group living homes only): Contact office or On-Call Supervisor. We recommend that Directors/Managers keep gas tanks ½ full or above. This can prevent gas line freeze in winter. It may also be helpful in evacuating people or in assisting ADEC personnel to get to work. ADEC personnel need to remain at work past the end of their work shift until another person can arrive.

7. **Hazardous Material Accident:** Any spillage of a hazardous chemical or radioactive material should be reported immediately to the police and fire department, 911. Assist all people in exiting the affected area. Do not panic. Once outside, move to a clear area at least 500 feet away from the affected area. Do not return unless told to do so by emergency personnel. If the hazardous material accident occurs outside, head inside immediately. Close all windows and doors. Shut off the ventilation system. Fashion a low-tech gas mask for yourself and all people you are supporting. Crumple a shirt or any other material at hand into a ball and hold it over your nose and mouth. Wetting it will get you more protection

8. **Wide-Spread Area, Internet Failure:** it is recognized that this would be a significant issue to address as nearly all elements of society are now dependent upon internet and cell phone ability to communicate, document and connect.

- a. Plans are being implemented to ensure that in ADEC, Inc. own residential facilities, such as supervised group living, that if a land line is installed, that non-battery phones are readily available to plug in and use.

9. **Trash Removal:** In the even trash removal systems are disrupted in excess of one week, maintenance ADEC personnel will be notified so that the trash may be removed and placed in facility owned dumpsters.

10. **Disposal of Sewage:** In the event there is a disruption in the sewage provided either by the city or septic system that cannot be resolved by general maintenance of a licensed plumber or septic company, the facility will follow the plan for relocation until the issue has been resolved.
11. **Shelter In-Place:** In the event we are told by emergency management that we are to shelter in-place, the “shelter-in-place” protocol will be followed in each designated area.

F. Missing Persons

1. ADEC personnel on duty must determine the appropriate time to begin a search, based on the weather, time of day, and the individual’s abilities, habits, needs, etc. A search for a missing person-served will begin immediately if not otherwise noted or specified in the individual’s PCISP or BMP as an acceptable behavior management technique. An individual’s PCISP or BMP may allow the individual to go for a “walk” from their site without ADEC personnel supervision to regain/diminish specific behaviors. A specified amount of time must be indicated on the individual’s ISP, for ADEC personnel to allow the individual to leave the site, if receiving 24-hour supports. If a person’s whereabouts is not known and that person has not been seen in the building within the number of hours or minutes specified by the PCISP or BMP, the ADEC personnel on duty shall begin a search for him or her. ADEC personnel should begin by:
 - a. Checking with other people he or she live with.
 - b. Checking with last place the individual was known to be.
 - c. Checking the individual’s immediate neighborhood. If a ADEC personnel person on duty is supervising more than one individual, and there are no other ADEC personnel present who can remain with the other individuals while the ADEC personnel person searches for the missing individual, then ADEC personnel should stay with the remaining individuals served and move directly to **calling 911**.
2. ADEC personnel will contact supervisory personnel, as soon as possible.
3. ADEC personnel will notify missing persons by **calling 911**.
 - a. Explain individuals served level of disability, including diagnosis, physical and/or mental disabilities, circumstances and action taken thus far.
 - b. Provide physical descriptions and / or Photographs, as authorized, from the individual’s personal file.
4. Supervisory ADEC personnel will notify family, guardian, or other responsible parties as needed.
5. All actions will be documented as they are taken in the individual’s master files.
6. ADEC personnel will complete an Accident / Incident Report form and submit it to the supervisor and Director of Protective Services.

G. Death

Policy 6.2.2 Case Record Closure Upon the Death of an Individuals served is ADEC, Inc.’s policy for when an individual served master file is closed if an individual served dies and no new information is entered it from the time of death forward. The purpose of this policy is to ensure the veracity and accuracy of the case record contents especially those leading up to the death of the individuals served.

It is the responsibility of the above service organizations to ensure the that policies are carried out for each of the individuals served they have primary program management for.

1. In the event of an individual served is suspected to have died in a residential setting, ADEC personnel on duty will:
 - a. Contact emergency help by **calling 911**. Be prepared to give a description of the person's condition.
 - b. Initiate CPR. You must always initiate CPR.
 - c. Do not touch or change anything in the area surrounding the individual, if possible.
 - d. Upon arrival of emergency service personnel: notification of coroner by EMS will be completed by EMS and removal of body will be completed according to state or county regulations.
 - e. Complete an Accident / Incident Report, documenting date, time and specific circumstances. Note what actions were taken to revive the person and what people/agencies were called. Follow procedures described in Policy 7.2.2.
 - f. ADEC personnel will notify supervisory personnel and Director of Protective Services.
 - g. Supervisory personnel will:
 - i. Notify the individual's next of kin, guardian, physician, case manager, state reporting agencies, and other responsible parties immediately.
 - ii. If a supervisory ADEC personnel cannot be reached immediately, the ADEC personnel on duty will do this.
 - h. The Program Director/QMRP will complete incident reporting to state agencies noting what actions were taken to revive the person, what people/agencies were called, who determined the death and on what objective basis, and the actions taken once death was determined.
 - i. See that personal belongings are handled in a responsible and legal manner.
 - ii. Assist in making funeral and burial arrangements if requested and/or necessary.
 - iii. If an autopsy is performed, based on wishes of guardian and/or others, secure a copy for the record.
 - iv. Records of a deceased individual will be retained for a period of 7 years following death, according to Policy 6.2.2.

H. Medications

Policy 7.2.1 Medication Administration Policy

It is the policy of ADEC, Inc. to ensure the safe administration of therapeutic medications to its person served in accordance with all legislative and regulatory requirements. ADEC, Inc. does not prescribe medication but does dispense and administer medications for many of its person served. When required ADEC, Inc. also maintains physical control of medication self-administered by persons served.

In the case of an emergency or disruptive event, every attempt will be made to maintain regularity in the disbursement of medications. A hardcopy of the medication requirement for individuals served in supervised group living or 24X7 residential supportive living will be maintained.

I. Flu/ Pandemic Flu or Virus

Transmission-based precautions

The spread of the flu or virus can shift to 'community transition. The best ways to protect yourself are to:

- I. Clean your hands often
 - o **Wash your hands** often with soap and water for at least 20 seconds especially before and after you have been in a public place, or after blowing your nose, coughing, or sneezing.

- If soap and water are not readily available, **use a hand sanitizer that contains at least 60% alcohol**. Cover all surfaces of your hands and rub them together until they feel dry.
 - **Avoid touching your eyes, nose, and mouth** with unwashed hands.
- II. Cover coughs and sneezes
- **Cover your mouth and nose** with a tissue when you cough or sneeze or use the inside of your elbow.
 - **Throw used tissues** in the trash.
 - Immediately **wash your hands** with soap and water for at least 20 seconds. If soap and water are not readily available, clean your hands with a hand sanitizer that contains at least 60% alcohol.
- III. Clean and disinfect
- **Clean AND disinfect frequently touched surfaces daily**. This includes tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, toilets, faucets, and sinks.
 - **If surfaces are dirty, clean them**: Use detergent or soap and water prior to disinfection.
- IV. Contact with illness
- **Avoid** close contact with people who are sick,
 - **Stay** home when you are sick – follow ADEC guidelines

In addition, ADEC may choose to limit visitation access, community-based activities, and volunteer engagements. ADEC may also have to alter programming services to minimize risks. This could possibly include temporarily suspending our facility-based services, transportation and other services. ADEC will monitor the situations and revise procedures as appropriate.

If attending a public event, encourage the use of “method of greeting” for that group. It might be an elbow bump, Spock’s Vulcan “live long and prosper” greeting, or a “jazz festival jig”. In addition, ask about extra hand-wash stations. If possible, have the people spread out a little more in the space.

Coronavirus

Coronavirus is a type of respiratory illness. The typical or common coronaviruses circulate among humans and cause mild illness, like the common cold. Human coronaviruses most commonly spread from an infected person to others through:

- Respiratory droplets released into the air by coughing and sneezing;
- Close personal contact, such as touching or shaking hands;
- Touching an object or surface with the virus on it, then touching your mouth, nose, or eyes before washing your hands; and
- Rarely, fecal contamination

The Center for Disease Control does not recommend that people who are well wear a facemask to protect themselves from respiratory illnesses. You should only wear a mask if a healthcare professional recommends it. A facemask should be used by people who have the confirmed coronavirus and are showing symptoms to protect others from the risk of infection.

Influenza

The best way to prevent getting influenza is by getting the vaccine. The CDC recommends getting the flu vaccine by the end of October. It takes approximately two weeks for the antibodies that protect against the flu to develop. Getting it later may still be of benefit since the flu season lasts through May.

Careful and frequent handwashing along with covering your mouth when coughing or sneezing can cut down on the spread of influenza or

Many insurance companies cover the cost of the influenza vaccine. Walmart, Meijer, CVS, and Walgreens have walk-in hours for immunizations. Many doctors' offices have nurse visits for vaccines. Consider getting the flu vaccine for your protection and the protection of your families and person served.

In the event of an outbreak of influenza:

1. Droplet precautions should be implemented for person served with suspected or confirmed influenza for seven days after illness onset or until 24 hours after the resolution of fever and respiratory symptoms, whichever is longer.
2. Symptomatic person served should stay in their own room as much as possible and have meals served separately from other person served. Place ill person served in a separate room if possible. If this is not possible, they may be placed in a room with another person served who has been diagnosed with influenza.
3. The PCP of the roommates should be contacted to advise of a positive influenza diagnosis and to request an antiviral for the roommates if possible.
4. Limit activities outside the person served's room.
5. PPE such as surgical masks should be worn when entering the room of a person served with influenza. Remove face mask when leaving person served's room and dispose of in a waste receptacle. If the person served needs to leave their room, a surgical mask should be worn. Wear gloves if hand contact with respiratory secretions is possible.
6. Frequent careful handwashing should be practiced by ADEC personnel and person served

ADEC, INC.
NOTES TO FINANCIAL STATEMENTS
June 30, 2021 and 2020

NOTE 1 - NATURE OF ACTIVITIES AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities: ADEC, Inc. (the Organization) strives to promote an understanding of its mission and to encourage persons experiencing disabilities or other special challenges to maximize their potential. The Organization is a not-for-profit corporation which provides services primarily in Elkhart and St. Joseph Counties, Indiana.

Basis of Accounting: The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Financial Statement Presentation: The financial statements report the changes in and totals of each net asset class based on the existence or absence of donor restrictions, as applicable. Net assets are classified as without donor restrictions or with donor restrictions and are detailed as follows:

Net assets without donor restrictions are net assets that are not subject to donor-imposed stipulations and may be expended for any purpose in performing the primary objectives of the Organization.

Net assets with donor restrictions are net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature and will be met by actions of the Organization or by the passage of time. At June 30, 2021 and 2020, purpose or time restricted net assets consist of capital items of \$338,831 and \$221,475, respectively, whose restrictions are released as depreciation expense is recognized and unspent endowment earnings of \$647,065 and \$349,981, respectively, (Note 10). Other donor restrictions are perpetual in nature, where the donor has stipulated the funds be maintained in perpetuity. Net assets reported as perpetually restricted within these financial statements represent donor-restricted support received by the Organization in connection with the endowment. The endowment was established to support future needs of those individuals requiring services within the scope of the Organization's mission. The principal is maintained in perpetuity of \$1,654,704 and \$1,654,314, respectively. The income generated by the endowment is available to support current operations.

Use of Estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents: Cash and cash equivalents consist of bank deposits in accounts that are federally insured up to \$250,000. At times these amounts may exceed federally insured limits. Additionally, for purposes of the statements of cash flows, the Organization considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Investments: All investments are valued at their fair values in the balance sheets. Realized and unrealized gains and losses are included in the statements of activities. See Notes 3 and 9 for additional information on the nature of the Organization's investments.

Accounts Receivable: The accounts receivable balance represents the unpaid amounts billed to companies and third-party payors. Contractual adjustments, discounts, and an allowance for uncollectible accounts are recorded to report receivables for services at net realizable value. Past due receivables are determined based on contractual terms. The Organization does not accrue interest on any of its accounts receivables. Approximately 90% and 88% of the receivables related to residential and adult training services are from Medicaid at June 30, 2021 and 2020, respectively.

NOTE 1 - NATURE OF ACTIVITIES AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(Continued)

Land, Buildings, and Equipment: Property and equipment are stated at cost or, if donated to the Organization, at fair value on the date of acquisition. Additions and improvements over \$500 are capitalized; expenditures for routine maintenance are charged to operations. Depreciation is provided over the estimated useful lives of the various classes of assets on the straight-line method.

Gifts of long-lived assets such as land, buildings, and equipment are reported as support without donor restrictions unless explicit donor stipulations specify how the donated assets are to be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash and other assets that must be used to acquire long-lived assets are reported as purpose or time restricted support. Absent explicit donor stipulations about how long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Impairment of Long-Lived Assets: The Organization reviews long-lived assets for impairment whenever events or circumstances indicate that the carrying amounts may be overstated. The Organization recognizes impairment losses if the undiscounted cash flows expected to be generated by the asset are less than the carrying value of the related asset. No impairment of long-lived assets was recognized during the years ended June 30, 2021 and 2020.

Program Service Revenue: Resident service revenue is reported at the estimated net realizable amounts from residents, third-party payors and others for services rendered. These amounts include retroactive adjustments due to audits. Provisions for estimated third-party payor settlements are provided in the period the related services are rendered. Differences between the initial estimated amounts and final settlements are reported in operations in the year of settlement. Generally, the Organization bills the residents and third-party payors the month several days after the services are performed. Revenue is recognized as performance obligations are satisfied.

Performance obligations are determined based on the nature of the services provided by the Organization and are measured when services are performed for the residents. At that point in time, revenue is recognized. The Organization determines the transaction price based on standard charges for services provided. A summary of the payment arrangements with Medicaid is as follows:

Resident Service: The Organization is reimbursed for services rendered to state-sponsored Medicaid beneficiaries on a prospective payment basis, with potential settlements made on the difference between initial estimated rates and final settlement rates determined by Medicaid. No additional settlement will be made on the difference between the initial estimated rates paid and actual costs. Retroactive adjustments are recorded in the period the final settlements are determined.

Adult Day Service: Day Program revenues represent non-residential waiver fees received for services provided on a per visit basis. The services primarily include adult habilitation at the Organization's five day service locations, as well as employment and family services including therapies and services to transport individuals to these programs.

NOTES TO FINANCIAL STATEMENTS
June 30, 2021 and 2020

NOTE 1 - NATURE OF ACTIVITIES AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(Continued)

Under the terms of certain government reimbursed programs, providers of these services are subject to regulation by the program intermediaries. For Resident Service and Adult Day Service, payment for the services rendered is based upon "allowable cost" as defined by each program's regulations, and is subject to financial audit by the program intermediary. The residential group home programs reimbursed by the Indiana Family and Social Services Administration are subject to regulation and financial compliance review by the program intermediaries. Costs and reimbursements for the years ended June 30, 2018 through June 30, 2021 for certain programs remain subject to final financial compliance review by program intermediaries.

Contributions: Contributions received and unconditional promises to give are recorded as revenue without donor restrictions or revenue with donor restrictions depending on the existence of donor restrictions and the nature of such restrictions, if they exist. If a restriction is fulfilled in the same accounting period in which the contribution is received, the contribution is reported as without donor restrictions.

Functional Allocation of Expenses: The costs of providing various programs and other activities have been summarized on a functional basis in the statements of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited. For the years ended June 30, 2021 and 2020, fundraising expenses of \$13,355 and \$9,094, respectively, have been included in total administrative expense reported in the statements of activities.

Income Taxes: The Organization is exempt from income taxes on income from related activities under Section 501(c)(3) of the U.S. Internal Revenue Code and corresponding state tax law. Accordingly, no provision has been made for federal or state income taxes.

U.S. GAAP requires that a tax position is recognized as a benefit only if it is "more likely than not" that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax positions not meeting the "more likely than not" test, no tax benefit is recorded.

The Organization's Form 990 has not been subject to examination by the Internal Revenue Service or the state of Indiana for the last three years. The Organization does not expect the total amount of unrecognized tax benefits to significantly change in the next 12 months. The Organization recognizes interest and/or penalties related to income tax matters in income tax expense. The Organization did not have any amounts accrued for interest and penalties at June 30, 2021 and 2020.

Reclassifications: Certain reclassifications have been made to present last year's financial statements on a basis comparable to the current year's financial statements. These reclassifications had no effect on the change in net assets.

Subsequent Events: Management has performed an analysis of the activities and transactions subsequent to June 30, 2021 to determine the need for any adjustments to and/or disclosures within the financial statements for the year ended June 30, 2021. The Organization has evaluated subsequent events for recognition and disclosure through August 26, 2021, which is the date the financial statements were available to be issued.

June 30, 2021 and 2020

NOTE 2 - LIQUIDITY AND AVAILABILITY

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the balance sheet date, comprise the following:

	<u>2021</u>	<u>2020</u>
Cash and cash equivalents	\$ 273,353	\$ 267,639
Accounts receivable, net	1,538,488	1,458,154
Investments	28,570,142	22,795,248
Less net assets with donor restrictions	<u>(2,640,600)</u>	<u>(2,225,770)</u>
	<u>\$ 27,741,383</u>	<u>\$ 22,295,271</u>

As part of the Organization's liquidity management plan, management invests cash in excess of daily requirements in short-term investments, certificates of deposit, and money market funds. The Organization has a goal to maintain financial assets, which consist of cash and short-term investments, on hand to meet 60 days of normal operating expenses. The Organization has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations come due. The Organization typically collects most accounts receivable within two months of the date of service. Collections by payor type may vary based on payor source liquidity and timeliness of claims processing. In the event of an unanticipated liquidity need, the Organization also could draw upon its available line of credit (as further discussed in Note 5).

The Organization's endowment funds consists of donor-restricted endowments. Income from donor-restricted endowments is available for general use. Donor-restricted endowment funds are not available for general expenditure (Note 10).

NOTE 7 - EMPLOYEE BENEFIT RETIREMENT PLAN

The Organization maintains a tax sheltered annuity plan, provided for in Internal Revenue Code Section 403(b) for any employee who is expected to work 20 or more hours per week and 1,000 hours per year. The Organization's plan is subject to the audit requirements prescribed by the United States of America's Department of Labor. For the years ended June 30, 2021 and 2020, the amount of the contribution to the plan represents 50% of the employee's contribution up to 6% of the employee's gross pay. The Organization contributed \$124,411 and \$131,049 to the plan for the years ended June 30, 2021 and 2020, respectively.

NOTE 8 - SELF-FUNDED HEALTH INSURANCE

The Organization is liable for employee's healthcare claims up to \$60,000 per employee but unlimited in total for the year ended June 30, 2021. The Organization has third-party insurance coverage for any claims in excess of such amounts. Costs are accrued based on claims reported as of the balance sheet date as well as an estimated liability for claims incurred but not reported of \$101,665 and \$116,665 at June 30, 2021 and 2020, respectively. The expense for this plan, including health, life, and disability insurance coverage, for the years ended June 30, 2021 and 2020 was \$813,114 and \$851,195, respectively.

NOTE 9 - FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS

U.S. GAAP defines fair value as the price that would be received for an asset or paid to transfer a liability (an exit price) in the Organization's principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

A fair value hierarchy requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. There are three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date. The fair values of money market funds, mutual funds, real estate investment trusts, and common stocks that are readily marketable are determined by obtaining quoted prices on nationally recognized securities exchanges.

(Continued)

ADEC, INC.
NOTES TO FINANCIAL STATEMENTS
June 30, 2021 and 2020

NOTE 9 - FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS (Continued)

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data. The fair values of certificates of deposit are determined through inquiries of financial institutions from which they originated. The fair values are typically the original principal value plus accrued interest earned with no discounts for credit quality or liquidity determined to be applicable. The fair values of the Organization's U.S. Government debt obligations and corporate bonds were determined by matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark-quoted securities.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability. The Organization has no financial instruments valued with Level 3 inputs.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

Assets measured at fair value on a recurring basis are summarized below:

Interpretation of UPMIFA: The Organization has interpreted Indiana's version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary.

As a result of this interpretation, the Organization classifies as net assets with donor restrictions (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and if applicable (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund
- (2) The purposes of the Organization and the donor-restricted endowment fund
- (3) General economic conditions
- (4) The possible effect of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other resources of the Organization
- (7) The investment policies of the Organization

NOTE 10 - ENDOWMENT COMPOSITION (Continued)

Return Objectives and Risk Parameters: The Organization has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Organization must hold in perpetuity or for a donor-specified period(s). Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce real portfolio growth which is reflective of the investment opportunities available in the market place, which exceed the underlying inflationary rate.

Strategies Employed for Achieving Objectives: The purpose of the endowment fund is to facilitate donors' desires to make substantial long-term gifts to the Organization to develop a significant source of revenue to support the endeavors of the Organization.

Spending Policy and How the Investment Objectives Relate to Spending Policy: Distributions shall not exceed 4% of the average principal balance of the previous fiscal year unless approved by the Finance Committee and the Board of Directors.

Fund with Deficiencies: From time to time, the fair value of assets associated with individual donor restricted endowment funds may fall below the level that the donors require the Organization to maintain. Cumulative deficiencies of this nature that are in excess of related purpose or time restricted amounts are reported in net assets with donor restrictions. There were no such deficiencies as of June 30, 2021 or 2020.

NOTE 11 - RECENT EVENTS

In December 2019, a novel strain of coronavirus surfaced and has spread around the world, with resulting business and social disruption. The coronavirus was declared a Public Health Emergency of International Concern by the World Health Organization on January 30, 2020. The operations and business results of the Organization could be materially adversely affected. Significant estimates as disclosed in Note 1, including valuation of investments, may be materially adversely impacted by national events designed to contain the coronavirus.

The Bureau of Developmental Disabilities created the Sustainability Grant to provide support to Home and Community Based Service (HCBS) Waiver and Omnibus Budget Reconciliation Act (OBRA) Providers who provide Adult Day, Facility Hab Waivers or OBRA programs that had to close or suspend services due to the coronavirus. During the year ended June 30, 2021, the Organization recognized \$733,050 in three sustainability grants in grant income in the statement of activities.

As a result of the economic uncertainty stemming from the impact of the COVID-19 pandemic, during April 2020, the Company received a Paycheck Protection Program (PPP) loan in the principal amount of \$2,000,000 from the US Small Business Administration (SBA). The PPP loan has a stated interest rate of 1% per annum and no payments of principal or interest are required until the end of a statutorily provided deferral period, which occurs when the SBA concludes on the amount of the loan that will be forgiven. Under the terms of the Paycheck Protection Program, a PPP loan provides for conditional forgiveness if the Company utilizes the loan proceeds on admissible expenses, including qualifying payroll, rent, and utility expenses, and maintains employment and compensation levels for a specified period of time.

The Company has elected to account for the loan proceeds under Topic ASC 958. During the year ended June 30, 2021, \$1,995,717 was forgiven and the remaining balance was paid in cash. The amount forgiven was recorded in grant income in the statement of activities.

Introduction

On behalf of ADEC – our employees and individuals and families served - I am pleased to present to you the proposed budget for Fiscal Year 2022. This Budget White-Paper provides you a narrative, an overview of our achievements, what we expect in the upcoming fiscal year, the reach and depth of our clients and employees, our financial strength, and the success factors to achieve the budget commitments.

The past sixteen months have been a challenge due to coronavirus pandemic with an even stronger **reaffirmation** of ADEC's commitment to our mission, vision, and values. Since March 5, 2020, our lives have changed, our way of living and all the necessities we seek and need – either with businesses or services – has been adjusted and adapted to a slightly new normal. Despite the pandemic, I am pleased to report that our programs continue to serve individuals and families across both St. Joseph and Elkhart Counties with genuine care and compassion.

It is an honor be the leader of this great organization and the entire team is committed to our mission and legacy.

A humble and genuine **“Thank You”** to the extraordinary and dedicated ADEC team and Board of Directors.

President / CEO Message

Fiscal Year 2021 has been a year of unprecedented challenges, essentially the past sixteen months of worldwide uncertainty, because of the Coronavirus virus pandemic. The pandemic and the wide-reaching decisions, reactions and proactive steps taken at every level – worldwide, federal, state, local and at ADEC - have changed our landscape. It requires one to pause, catch our breath, and share what magnanimous steps we have taken to not only respond to the pandemic but also strengthen the agency for sustainability, adaptability, and commitment to our mission.

When you shine the lights of Aux Chandelle on those we serve, you will see a stronger and reinvigorated organization, built upon the values and humble gratitude towards the true heroes – essential workers – #teamADEC.

As one walks through the doors of any of our ADEC facilities, you will enter a ‘new norm’ that reflects procedures and protocols in place to safeguard and help protect clients, employees, and families from spread of COVID-19. With face coverings, temperature monitoring, check-ins, continuous disinfecting and cleaning, quarantine rooms, social distancing, and more – you may find a quieter atmosphere with no visitors or volunteers. However, the joy, camaraderie and active treatment is there, just slightly muted. However, if you listen closely, you will hear the echoes of clients returning to services, clients being active and engaged and a lifting of spirits.

These past sixteen months has impacted our service industry – providers in a Medicaid based service IDD care and personal services. During this time, across Indiana, there have been several agencies in our industry, many of them active members in our trade associations (INARF and The Arc) that have had to make decisions to combine or merger as they could no longer operate independently. Some ‘collapsed’ leaving hundreds of clients seeking new providers for residential and day services. It is believed that the pandemic added to the pressures and is a contributing factor in the shortage of staff, the decline of clients participating in programs and just the underlying stress of being in personal care, essential workers, non-medical health services surrounded by a deadly virus. Indiana FSSA took steps to offer and make available funding, such as the BDDS DDRS Sustainability Grants, of which ADEC participated in. In addition, updates and relaxing of service rules, under CMS Appendix K authorization, gave providers the ability to offer telehealth services.

ADEC was proactive and intentionally focused on the care of the employees and the individuals served throughout the pandemic. Equally though, was the executive team's diligence on ensuring sustainability by looking ahead to create a structure that could continue in the current and post-virus environment. The fiscal year started with suspended programming, isolated clients into residential settings due to confirmed covid cases and resulting quarantines, federal and state legislative actions that impacted the workforce, due diligence and pursuit of federal and state stimulus funding, and grace and emotions of deaths due to covid.

Discussions and reviews lead to restructuring actions in both the non-residential and residential areas. Review of job descriptions and services linked directly to Home and Community Based Services waiver and Indiana State Department of Health codes for group homes led to the elimination of some roles (administrative and executive) that were no longer needed or redundant with other roles. Administrative staff level changes have been made in the both the non-residential and residential programs to better align costs with revenues and to simplify the organization. In addition, given the economic impact on manufacturing customers, ADEC Industries did not reopen the 14C work certificate and converted to competitive integrated employment. Conversely, ADEC reformatted and remodeled unused space at ADEC Industries and opened a new day service facility – The Hub – which meets the needs of higher functional individuals who are interested in job skill training and want an option that is different from the traditional day service locations.

To help attract new hires, ADEC made the decision to increase starting wages to \$15 / hour for field direct support personnel and is the process of completing a comprehensive wage analysis across all roles. All these actions are helping to position ADEC on a positive trajectory to build up the workforce and reward the true heroes – essential workers – [#teamADEC](#).

Through all of this, Fiscal Year 2021, ADEC's mission of informed choice and possibility, the spirit that drives our decisions and actions every day was fierce, protective of those we serve, thankful for the generosity from the community and grateful for the commitment of our staff.

We also had the quiet recognition of ADEC's 69th birthday and we are already planning for a community based outdoor *70th birthday, a celebration, in July 2022*. We aged with grace during a period of uncertainty, surreal changes, with the lights of Aux Chandelle burning bright and clear to guide us.

Unlike years past, which reflected high engagement with the community and employees, the pandemic necessitated a 'virtual technology-based' response – to clients, to employees, to donors and to our community. The past year has been a 'virtual decision making and engagement world'. We leveraged technology across all programs and operations and maintained an active pulse in advocacy, employee engagement, reaching families and donors and hearing our voices in the legislative process to address state-wide needs in our industry.

Coronavirus Impact

ADEC implemented eight agency level policies in response to the coronavirus pandemic.

These policies have been distributed to key ADEC personnel and Board of Directors as well as required reporting to FSSA/DDRS, BQIS, and other state organizations.

- Policy 12.0 - ADEC COVID-19 Temporary Paid Time Office Policy
- Policy 12.1 - ADEC Non-Residential Program Services
- Policy 12.2 - ADEC Administrative Infrastructure Support Functions
- Policy 12.3 - COVID-10 Waiver Release Form
- Policy 12.4 – ADEC Residential Procedures
- Policy 12.5 – ADEC Social Enterprise Operations
- Policy 12.6 – ADEC Respiratory Protection Program
- Policy 12.7 - ADEC Visitor Screening Questionnaire

ADEC suspended non-residential services in March 2020 and began limited reopening of programming services in June and July 2020. Programming services continue to be limited in capacity as covid-19 protocol and procedures are in place. We anticipate relaxing some of these restrictions, such as mask mandate, in July 2021.

Prior to COVID-19, ADEC was serving an average of 1300 individual program participants from across St. Joseph and Elkhart Counties. ADEC's services respond to the needs of people of all ages who experience developmental disabilities and delays. From infants to senior citizens, ADEC provides direct services; information or referrals to help individuals and families meet the challenges of living with disabilities.

As the covid vaccine became available, all ADEC employees were eligible to receive the covid vaccine. ADEC worked with CVS Omnicare to arrange vaccine clinics for residential clients served. Since January 2021, average clients served is about 1100, a 15% reduction from pre-covid days.

Exhibit 1. Clients Served

ADEC is operating six discreet day service program sites, 14 group homes, multiple apartments based and ADEC owned home-based clients, youth programs, and employment, ADEC Industries, transportation, and guardianship. With nearly 300 employees, and a hiring need of approximately 100 full time equivalents.

It was all-hands on deck in managing and operating during the height of the covid pandemic and the ongoing efforts to minimize its impact on the agency. Despite the environment, ADEC continued with programs and initiatives that build upon community inclusion, employee engagement, enhancing our culture, and financial sustainability. The following are some of Fiscal Year 2021 highlights in advocating, programming, governance, and engagement.

A notable attainment, that ADEC had been discussing and seeking for many years, is a new facility in St. Joseph County for programming. In May, ADEC purchased the former South Bend VA Clinic. With an estimate work plan of \$2.5(million) for renovations, the plan for occupancy and program ribbon cutting is in February 2021. Funding for this expansion is from marketable security holdings, operational accounts, in 1st Source Bank.

Exhibit 2. Strategic Initiatives

ADEC has a firm Mission Statement, a strong and defined set of Core Values and identified Strategic Initiatives as our guidance, ADEC is positioned for this ‘new norm’.

Strategic Initiatives
Our Guidance

Organization Structure

ADEC has a Governance Board, current with eleven volunteer members, which provides guidance and governance to Ms. Donna Belusar, Ph.D., the President / CEO. Ms. Belusar has been with ADEC since March 2012 and continues to provide executive leadership for all aspects of the agency.

The direct reports to the President-CEO include six executive vice-president members, RN Health Service coordinator and an executive administrative specialist.

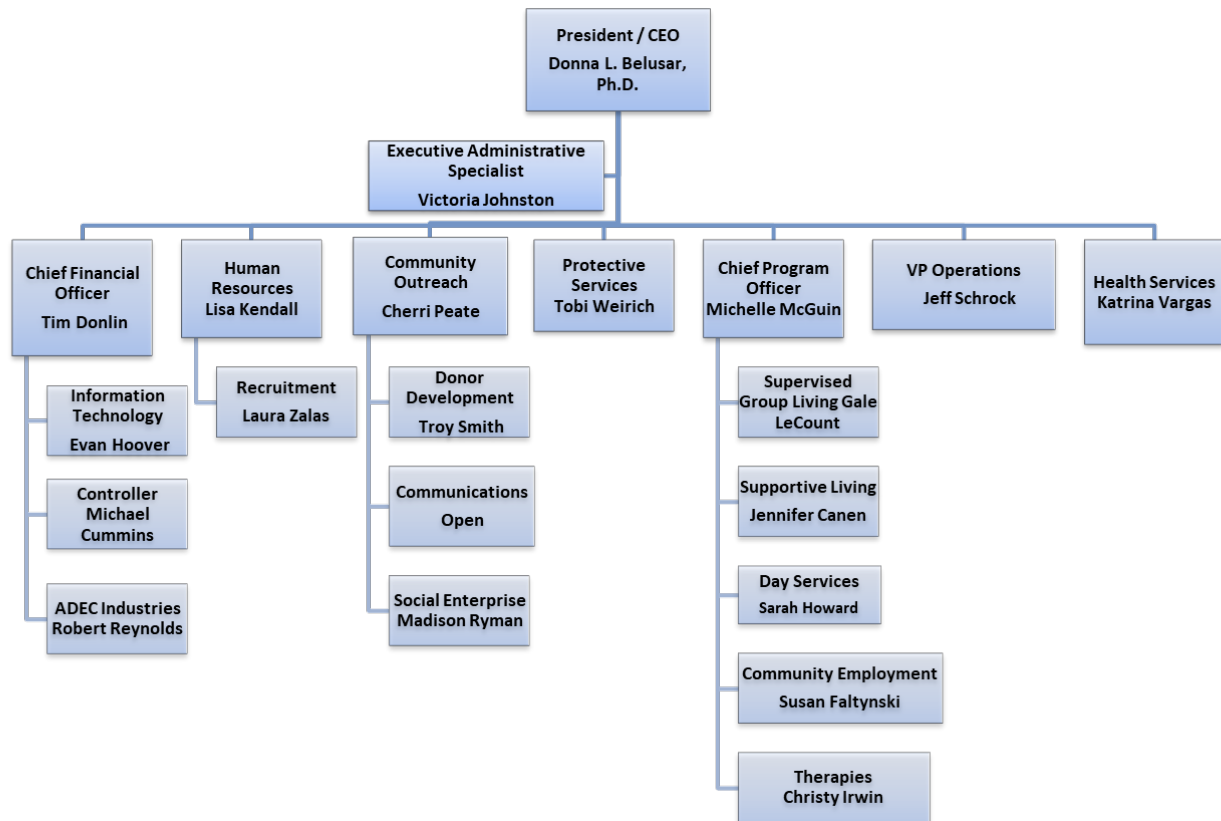

Executive Leadership Team

Program / Service Leadership Team

ADEC continues with the very solid and strong team organization structure recognized as the Program / Service Leadership team. This a twenty-one-member team that represents the core group responsibility and accountability for the programs we offer to the individuals and families we serve and the infrastructure services that facilitate operating the organization. Currently, the Communications Managers role is open, and we are actively recruiting.

All compliance, regulatory, programming and employee initiatives are vetted and discussed with the leaders of the programs and services.

The annual development of the next year’s fiscal budget is a detailed process. There are upfront discussions with the leadership and management team on key assumptions – ranging from staffing and hiring needs to capital requirements. Based on a Zero-based budget approach, each program is ‘built up’, facilitated with multiple iterative discussions and changes because of one-on-one reviews of each.

The detail budget is the result of comprehensive line-item input and iterative changes across all **thirty-five** cost centers. This level of detail and complexity:

- ensures that we have the accountability, governance and operational understanding to provide decision making in staffing levels, expense and capital requirements;
- provides ADEC the ability to meet the client specific needs of those that have chosen ADEC services and stay true to our mission and strategic direction;
- is detailed, and we believe each leader will be able to assert that they own their budgets and understand what goes into them, with a greater focus on managing controllable expenses; and
- captures all ADEC reporting deliverables.

Quality Assurance

During the peak of covid, visits to in-person programming locations were restricted and limited. During April – May 2021, all ADEC owned and resented facilities were inspected by the President/CEO with VP Finance; and separately with the VP Chief Program Office and VP Operations and again with the ADEC Safety Officer with outside Insurance Inspectors.

With the completion of all restructuring actions, additional focus and attention is being directed to quality assurance.

The commitment to quality and compliance is strengthen by the Quality Assurance Framework, Quality Committee, related policies as well as the rigorous approach to risk management and enterprise risk management.

In November 2020, ADEC refined the quality framework and branding to identify the 12 components of ADEC’s Quality Framework.

With identified objectives and goals to deliver excellence in Mission-Driven Programs and Services.

1. Person-Center Philosophy
2. Policies and Procedures
3. Governance and Leadership
4. Key Compliance Roles
5. Management System
6. Workforce Development
7. Sector and Community Engagement

Fiscal Year 2022 Budget

The proposed Fiscal Year 2022 Budget reflects an operational performance recovering from the extended impact of COVID-19. Through-out the past sixteen months, monthly fiscal reporting has estimated the financial impact of COVID-19 and reported these as non-occurring. To better facilitate an operational discussion, COVID impact has been isolated and reported uniquely to provide an operational view of Fiscal Years 2020 and 2021 to compare to Fiscal Year 2022 Budget.

The following exhibit shows the As Reported, Estimated COVID Impact and Operational Performance for the past two fiscal years.

ADEC Agency Results, which exclude the market impact of the investment portfolio, would have had \$1.2(m) positive position in fiscal year 2020 and \$1.8(m) in fiscal year 2021. As shared in monthly updates and reporting, fiscal year 2020 was impacted by suspended programs and increase expenses in wages and protective and cleaning requirements. Fiscal Year 2021 benefitted by actively pursuing and receiving sustainability grants and federal sponsored Payroll Protection Plan loans while continuing to incur increase wage and covid related expenses.

Exhibit 5: COVID Financial Impact

(\$ in Millions)	FY '20 As Reported	COVID Impact	FY '20 Operational	FY '21 As Projected	COVID Impact	FY '21 Operational

The following exhibit shows the trends from 2013 to budgeted 2022 for program revenue, local funding, total expenses and ADEC agency results.

The past nine years has delivered sustained financially solid programming and growth. We are planning on continuing this success into year ten, fiscal year 2022.

Exhibit 6: 2013 – 2022 Financial Trends

Operationally, we project growth in total program revenue by 8% in Fiscal Year 2022. This growth is supported by the recent Indiana State legislative decisions to increase Home and Community Based Setting (HCBS) waiver service reimbursement rates and a cost-of-living increase to Supervised Group Living (Group Home) daily rates. We are anticipating these rates to go into effect July 1, 2021.

Total expenses are projected to increase by 16% in fiscal year 2022, with the large majority attributed to increase labor costs. We acknowledge that this singular year has a revenue vs. expense imbalance.

However, ADEC must address the serious shortage of staffing resources that is impacting level of services and the cost reimbursement model base. With nearly 100 full-time-equivalent openings, the need to increase wages is essential.

Overall, from 2013 to 2022, total program revenue is projected to grow by 19%, averaging 3.3% per year. Total expenses are projected to have grown by 18% during the equivalent period resulting in a balanced operational position.

Since 2013, there has been an extraordinary ***\$8.8(M) cumulative contribution*** in ADEC Agency Results (*this excludes market returns from our investment accounts*). Including investments, the cumulative contribution is over \$19.9(m). We are all grateful of this achievement as this allows ADEC to sustain our programs, invest in our future, maintain our commitment to quality of care and program offerings and give back to our employees through competitive wages and benefits.

For investment returns, this budget is recommending a modest, 2% return in fiscal 2022. Since 2013, total investment accounts (*excludes operational cash*) are projected to grow from \$12.0 million to \$26.7 (million) in 2022.

At no time, since 2013, has ADEC needed to withdrawn funds from the Broker investment accounts.

The following exhibit shows the trends from 2013 to projected 2022 for total financial holdings, both investment (broker accounts) and operational.

Exhibit 7: Financial Holdings – Investment and Operational

At the end of Fiscal Year 2021, ADEC is projected to have over \$28.6 (million) in financial liquid holdings, broker investment portfolios, and operational accounts. This will fund the planned \$2.5(m) cash capital investments in our new St. Joseph County day service facility.

In year 2020, ADEC’s investment portfolio was reviewed and through a process of interviewing and receiving competitive financial portfolio analyses, an investment broker was switched out and a new relationship was established with The Stifel Group of Elkhart.

As of May 2021, the total Broker Portfolio was \$22.1 (million) and is held at:

- First Source \$11.4 (million),
- Wells Fargo \$ 4.9 (million), and
- Stifel Group \$ 5.8 (million).

ADEC is currently at 66.6% equity / mutual funds, 28.6% fixed income, 3.4% Alternative Funds and 1.4% Cash & Equivalents.

The operational strength of the past several years has created the strong foundation that attributes to ADEC's ability to maintain operations and meet the needs of both our clients and our employees, during the past sixteen months and years looking ahead. It is this foundation and the unrelenting support of the employees that will help us in fiscal year 2022.

Our biggest challenge is staffing, hiring fully dedicated employees to reduce the overtime, meet the needs of those we serve and support growth of programs.

All our actions will be consistent with our Strategic Plan Initiatives.

Key Assumptions

Some of the **key overall assumptions** that have been considered for the Fiscal Year 2022 budget include:

- No disruption of programs from a resurgence of the coronavirus,
 - Continue implementation of covid protocols and procedures in place (*except Mask Mandate*);
- State Budget 14% increase in identified HCBS waiver reimbursement rates effective July 1, 2021,
 - 95% of increase must be used for direct wages with detail compliance;
- Maintaining the strong referral system for residential to achieve 97% occupancy;
 - Receive anticipated 2% increase in Supervised Group Living daily reimbursement rates;
- Increase technology costs to support operations,
 - SIS Client Assessment Tool
 - HR ADP Recruiting Model
 - Solana Client Care Deployment
- Building and cultivating positive staff recruitment and retention and engagement;
 - Hire!
 - Retention!!
 - Reduce Overtime!!!
- Maintain Elkhart County funding at current levels;
- Service Programs return to pre-COVID capacity levels; and
- Successful remodel and occupancy of new St. Joseph facility (*target March 1, 2022*).

The following is a summary of the overall Statement of Activities (Income Statement) showing actual (as reported) fiscal year 2019, operational fiscal year 2020, projected operational 2021 and the proposed recommended fiscal year 2022 budget.

The proposed budget reflects Program Revenue of \$19,283,862, Local Funding of \$1,052,000 and Total Expenses of \$20,347,242. This results in a negative **(\$11,380)** at ADEC Agency Results.

Looking at program revenue and program expenses, excluding local funding, results in negative operating results of **(\$1,063,380)**.

Program Revenue

Nearly 94% of ADEC Program Revenue is funded by the individuals who qualify for social entitlement programs – Medicaid, Supplemental Security Income (SSI), Social Security Disability Income (SSDI) - as identified by the Bureau of Developmental Disabilities Services (BDDS) under the direction of FSSA/DDRS.

The individual qualifies for services and BDDS assists them in receiving community supports and residential services through home and community-based Medicaid waivers.

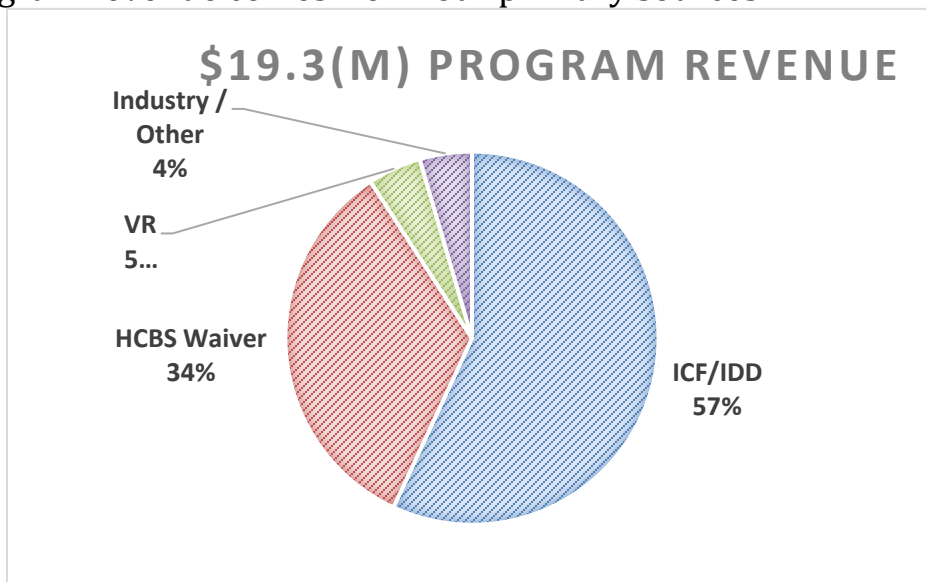

All payments for services are established, regulated, and audited through FSSA/DDRS.

Reimbursement for services, also known as fee for service, are paid through the state agency back to the provider, such as ADEC, only after services are provided and meet the criteria.

Revenue funding is dependent on the specific program ADEC offers and is selected by the individuals served.

Strategically, ADEC has offered services that are not funded by these social entitlement programs, such as Guardianship, some elements of Family Services, and others. These services are essentially unfunded yet are very critical and necessary programs meeting the needs throughout our communities.

Program revenue comes from four primary sources:

- \$11.0(m), 57%: ICF/IDD (Supervised Group Living)
- \$ 6.6(m), 34%: HCBS Waiver (Supported Living, Day Services, Transportation, Therapies)
- \$.9(m), 5%: VR
- \$.9(m), 5%: Industry/Other

As discussed, much of the \$1,428,822 increase (73%) in program revenue is driven by the anticipate state approved rates increases for ICF/IDD facilities, approximately \$220(k), and specific HCBS waiver reimbursement rate 14% increase estimated to be \$830(K). This estimated growth in revenue is dependent upon occupancy in the group homes and staffing and services provided to waiver clients.

Please note, that per state legislative mandate, 95% of the increase rate reimbursement, MUST go directly back to base wages. Therefore, as you review the year over year increase in wages, nearly \$800,000 of the increase is a direct pass-thru ONLY to direct support professionals (DSP's) and is funded.

It is important to note that the 14% increase does NOT support wages for DSPs working in group home settings. Agencies, like ADEC, who provide residential services in both waiver and group home settings do not have the options of increasing wages for DSPs in one setting and not the other, especially as many DSPs work in both waiver and group home settings. This creates a significant resource allocation problem and could cause staffing challenges as DSPs try to move towards waiver shifts with substantially higher wages. Additionally, in previous conversations about proposed DSP wage increase language, FSSA has indicated that there was a potential issue regarding cost neutrality for waiver services in comparison to group homes.

ADEC took wages for ALL DSP's up to a starting wage of \$15.00.

The remaining revenue growth is attributed to growth in clients served in other funded programs and industry sales.

An important component of the Fiscal Year 2022 Budget is continuing our funds development initiatives to increase donor-based dollars.

Exhibit 9: Contributions Strategy

The multi-phased, quarterly approach lays out a strategy to achieve \$325,000 in donations, kicking off the second annual Picture Possibilities On-line event in July.

ADEC is also budgeting the continuation of funds from Elkhart County and the remaining six months as a Community Impact Partner with United Way. There will be minimal NAP Credits offered by Indiana State this year.

Exhibit 10: Capital Investment

ADEC is planning higher capital investments primarily for the remodel of the newly purchased St. Joseph Day Service Facility. Over 83% of the budgeted three million is for this investment. The proposed 2022 funding request is identified below.

Rounding off the discussion of the financial aspects of the Fiscal Year 2022 budget is Balance Sheet and Cash Flow. This view is one of the most important views in understanding the financial strength and sustainability of ADEC.

The strength of our balance sheet and availability of investments will protect the agency and achieve long term sustainability as we implement our strategic initiatives.

Exhibit 11: Balance Sheet

ADEC's balance sheet is outstanding. Liquid assets exceed 79% of total net assets. Liabilities are all current operational liabilities such as accounts payable, wages and near-term accrued expenses. Assets are tangible buildings and land as well as the investment portfolio, operational accounts receivable and inventory associated with our ADEC Industries liner business. Overall, ADEC generates a positive cash flow.

Our Reach – Clients Served

ADEC is the one of the most comprehensive service providers in Northern Indiana with a full breath of services and programs to the extended communities in Elkhart and St. Joseph counties. The families and individuals we serve and the community outreach we provide is the foundation of our actions. Our mission to *“proudly advocate for and serve people with developmental and intellectual disabilities so they live lives full of **INFORMED** choice and possibility,”* governs every decision and action we take.

Our clients and the quality of the client-specific services we provide to them are our top priorities. Prior to COVID-19, we were serving nearly 1300 clients in individual programs.

Almost 950 were directly impacted by suspended programs and an addition 189 were self-isolated in ADEC supported residential settings through-out the majority of 2020.

We are currently averaging around 1,100 clients across the programs. We are projecting gradual return once covid restrictions are lifted and we expand our facilities.

Several ADEC programs have historically, for decades, operated discretely at a deficit loss, as the funding is much less than the costs incurred, such as Day Services, Transportation, Guardianship and Family Services. However, it is these very programs, such as ADEC Transportation which enables individuals to be at ADEC.

It is our Day Programs and Family Services that drawn families to choose ADEC and why families join our residential programs. Our residential programs – both group homes and supportive living are **CRITICAL**, and they account for **73%** of total program revenue. All three of these programs - Day Services, Transportation, and Family Services - are important feeders into ADEC residential programs.

For those programs operating with a deficit, additional local funding sources or the operating surplus from other programs, helps to offset the deficit.

It is clearly recognized that ADEC can be called on to serve the needs of individuals and families within our communities while providing a quality of care and options for clients.

Our Most Critical Resource – Our Employees

ADEC is a social enterprise dedicated to a mission of informed **choice and possibility** for individuals and their families. Our services do span the entire lifetime of a client and it is all dependent upon and possible because of our most important resource – **our employees** - **#teamADEC**. These past sixteen months is a true testimony to the commit and belief we have in our mission.

Our long-term competitive performance base wage structure is strongly favored by our field personnel. We believe it is fundamental to improving retention and employee engagement and reducing turnover.

Approximately 74% of our total expenses are in Wages and Benefits, which is projected to grow nineteen percent to \$15,143,364. Fully staffed, ADEC strives to achieve staffing levels reaching more than 390 employees.

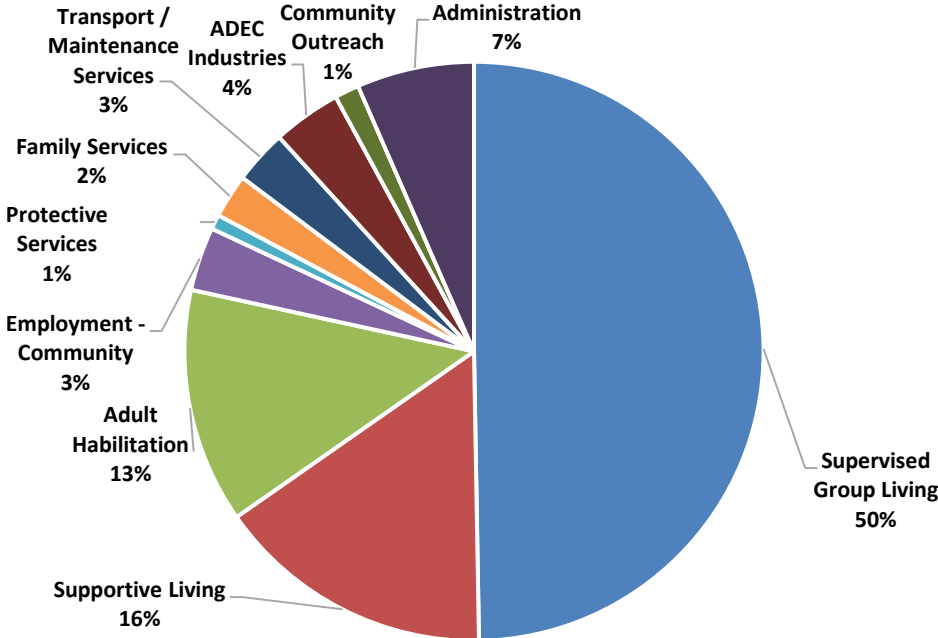

At the time of the budget process, we were at 100 FTE openings. This is currently at 81. This improvement is 100% attributed to the increase in starting wage.

Turnover	26.9%	30.9%	38.9%	44.4%	42.9%	44.2%	~ 25%

It is acknowledged that the open positions result in overtime. It is practical and realistic that in the foreseeable future, we will not fill all our open positions. This gap is being filled with double digit overtime for critical needs. As a percent of wages, looking back to 2013, overtime remains over 10.5%. However, the field overtime, the direct support professionals in our 24x7 facilities that require evenings, weekends and holidays is as high as 26% in supportive living and 17% in supervised group living. We are making every attempt to be flexible to employees wanting part-time, to only working weekends, etc.

Program Directors and Executive Leadership monitor and receive monthly detail payroll reports by cost center with employee hours and compensation. Every attempt is made to ensure the health and safety of our clients and balance their needs and wishes for choices and participation in activities throughout the communities.

To support employees in their roles, ADEC expenses over \$550(k) in technology related support and systems, excluding I/T staff, annually.
