ITL Deliveries (Into the Light Deliveries) pays homage to ADEC's beginning. Aux Chandelles, which means "into the light," was a school built in the 1960's that brought individuals with disabilities out of institutions. To celebrate ADEC's history, Gaining Grounds has also created a unique house blend called Aux Chandelles, made from Brazilian, Mexican, and Guatemalan beans. We purchase all our beans from The Refinery in Goshen. They air roast their beans for a less bitter and less acidic coffee bean, so all types of coffee drinkers can enjoy. When you purchase our coffee, you're supporting ADEC and its mission to advocate for and serve individuals with intellectual and developmental disabilities.
