## RECOGNITIONS

**SEPTEMBER 2024**

# ALEXIS THERIOT

Going above and beyond helping with healthy choices and taking time with the residents to stay active.

---

# JENNIFER MILLER

I love that we are asked to recognize others because I wouldn't have thought about this one. Jennifer is amazing! She comes through here speaking to all the clients and always has the biggest smile on her gorgeous face. She is so nice to everyone! The clients can't wait to go back to music with her when it's one to one, but especially when she grabs a group to come back. She is truly appreciated here at Plaza! Thanks for all you do Jennifer!!

The Music Therapy Department recently finished hosting our first Music Therapy Intern. The intern was with our department from January to the end of July. Throughout the internship process, Jennifer took on more and more responsibility with the training. She spent countless hours going over sessions and helping the intern learn and grow throughout her time here. I appreciate Jennifer's willingness and excitement to help nurture and train the intern.

---

# SHAWN MATTHEWS

I want to recognize Shawn for him going above and beyond to help me out. He came in early on a day that he was sick to set up the equipment for a committee meeting. I always appreciate everything he does, but especially on this day. A BIG thank you to Shawn!!!
